

ExxonMobil Corporate Donation in Support of MATHCOUNTS

We are pleased to share that the Goose Creek CISD Education Foundation has received a corporate donation from ExxonMobil in support of the MATHCOUNTS program.

MATHCOUNTS is a national middle school math enrichment and competition program that builds problem-solving skills and fosters a love for STEM among students in grades 6–8. ExxonMobil's contribution will enhance this year's event by providing t-shirts, medals, and a celebratory awards banquet to recognize student achievement and inspire continued excellence in mathematics.

We extend our sincere appreciation to ExxonMobil for their ongoing partnership and commitment to promoting STEM learning opportunities for students in Goose Creek CISD.
