

Cambridge-Isanti Schools
Long Range Facilities Committee
4:30 PM on December 5, 2024
Education Services Center

MINUTES

Members Present:

Kevin Gross, Mark Solberg, Nate Rudolph, Chris Wilmot, Christina Thayer Anderson, and Christopher Kampa.

CIHS Update:

The committee received an update on the mini-split unit being that is being added to the server room at the Cambridge-Isanti High School. This will allow us to control the server room climate much better and help keep the adjoining classroom cooled in the summer.

IPS Update:

We are looking into options to replace or repair the old Airdale units at Isanti Primary School. These are individual classroom heats that are outdated and cause us issues in four classrooms. We are looking into options.

Districtwide:

We are replacing several doors at various schools throughout the district. Most of them are outside doors and we are trying to get them replaced for energy savings this winter.
