

SCHOOL BOARD AGENDA ITEM SUMMARY

June 1, 2026

SUBJECT: CONSIDERATION OF APPROVAL OF INNOVATIVE COURSES

RECOMMENDED ACTION: Approve the following innovative courses for Instrumentation, Process Technology and Logistics Dual Credit Pathways with Lee College:

Refining and Chemical Processes Program of Study:

- Introduction to Instrumentation and Electrical
- Advanced Instrument and Electrical
- Practicum in Energy

Logistics Program of Study:

- Concepts of Distribution and Logistics Technology
- Occupational Safety and Environmental Technology I

RATIONALE: These innovative courses are designed to align directly with high-demand industry pathways. The dual credit pathways will lead to level 1 college certificates, hands-on technical skills that support workforce readiness and post-secondary success. Approval of these courses will expand access to high-quality dual credit pathways that meet local workforce needs.

BUDGET PROVISIONS/ACTION REQUIRED: None

RESOURCE PERSONNEL: Dr. Joe Rodriguez
Dr. Susan Jackson
Ms. Leia Miller
