

## **Executive Summary**

### **Safety and Security Update**

This information is provided as an update on where we are in terms of safety/security. As far as our next steps, we have \$2,000,000 dollars earmarked for safety/security improvements. We have met with our Security Committee to assist in developing a plan to strengthen our overall security within Tupelo Public School District. We have also shared this plan with our Crisis Management Team and received a great deal of positive feedback.

Our number one recommendation to strengthen our campus security is additional certified law enforcement officers. Additional recommendations are located in the, “Probable Cost of Security Items” slides. One thing to remember is we are looking at 6 – 8 months to complete these recommendations. An estimate of the overall cost of these security items is approximately \$1,953,026.
