

**BOARD OF TRUSTEES
JARRELL INDEPENDENT SCHOOL DISTRICT
JARRELL, TEXAS**

Date: March 4, 2026

Reported by: Laura Buckley

Subject: Campus Local and Targeted Improvement Plans

Discussion/Action

BACKGROUND INFORMATION:

Texas Education Code §11.251(a) requires every district and campus to develop, review, and revise annual goals to strategically improve student performance across all student populations.

Additionally, Texas schools are required to create a Local Improvement Plan (LIP) or Targeted Improvement Plan (TIP) when identified, as outlined in Texas Education Code §39.106. The purpose of the LIP and TIP is to ensure that campuses engage in a focused, systematic process to identify the root causes of low performance and implement targeted strategies to improve student outcomes. The plans promote continuous improvement through regular goal setting, action planning, and progress monitoring. Additionally, the LIP and TIP process provides access to state and district support, helps coordinate resources for improvement, and promotes transparency with parents and the broader school community about how the campus plans to achieve better academic results.

STRATEGIC GOAL: All goals are addressed.

ITEM ADDRESSED: The presentation will include the purpose, process, and key inclusions of campus local and targeted improvement plans.

BUDGET INFORMATION: Local funds and grant funds are used to implement plans.

RECOMMENDED ACTION: Consider Board approval of the 25-26 Igo Elementary School Targeted Improvement Plan (TIP) and the Jarrell Middle School Local Improvement Plan (LIP).
