

## **July Business Office Report**

Hello from Crystal, Glenna, Sherie, Sasheen and Tracie! I would like to welcome Sherie Blue to the business office as she replaced Linda Baker in Student Accounts/Mastercard office.

The moth of July is flying by. We the business office staff are working on implementing new procedures with the start of the fiscal year, which will assist with being more productive and efficient. One implementation will be deadlines.

I will be working with Jon Mahrt, the auditor. He will be assisting me with the TFS report and final closeout.

I had the opportunity to be a part of the negotiations. It was evident how the certified and classified union representatives were passionate about their requests. The negotiation process is lengthy and complex. In the end both parties came to a consensus.

Shout out to my staff for all they do. Each one is an asset and unique. I am grateful for the opportunity to lead a fine and competent group of outstanding women. Last but not least a shout out to Teresa Roland for always being a helping hand and willing to go above and beyond her duties and assisting me with ordering and other tasks.
