Working title:	Coronado: Reading Support Technology
Target population: <i>(Which schools, grades, staff, etc. are impacted?)</i>	Coronado K-8 6 th -8 th grade struggling readers
General problem addressed by the project:	Meeting the needs of struggling readers in middle school is a challenge. It is difficult to find materials that provide the right level of instruction and also keep teenagers engaged. Our project is designed to provide ipads and audiobooks to middle school students who would benefit from extra reading skills instruction and practice.
Project Synopsis: <i>(Please also attach the proposal abstract or any additional clarifying information needed.)</i>	In order to provide more support for our struggling readers, we are requesting ipads and audiobooks. These materials will allow students who struggle with reading to both see and hear the novels that they're reading in class. By engaging multiple senses and providing support for our auditory learners as well as our visual learners, we hope to keep students engaged and improve their reading comprehension.
