

Hyder School  
September 2019  
School Board Report

Students in Hyder are enjoying nice weather and getting out and about for photography class and preparation for fish camp. Both of these activities take advantage of our special surroundings instilling a sense of pride in our students as well as valuable life skills.

We have started an all school recycling program that follows new standards set by the Hyder Community Association. In our remote community, all trash is taken care of in town and our students are learning about job opportunities in this area and the importance of caring for their town and local watershed.

We enjoyed a week with our superintendent with the highlight being a community-wide pot luck dinner to improve communication community wide.

We have plans in the works for the elementary to study all of the available jobs in Hyder with weekly visits to local businesses. To find out what's going on at Hyder School, please follow us on Facebook as we try to post as much as possible.
