Teacher Assistance Proposal (P)

STEM-CAN Supporters, Inc.

To enhance your educational effectiveness STEM-CAN Supporters (SCS) is offering direct financial assistance to teachers in regular or traditional neighborhood public schools in Southern Arizona. If you are a teacher in such a traditional public school (not charter nor magnet), you may apply for up to \$600. Your Principal's expressed approval of the project is necessary. (If you are returning a paper copy of your application, mail to the above address, keeping copies for your Principal and for your own records.)

PROPOSAL details:

1. What is something that you would like very much to do for or with your students but you cannot currently afford to do it?
I would love to provide my students with weather stations to extend their learning when we are working on an integrated unit. I would have them read a book related to a topic and then work with hands-on activities that support the concept for the book.
2. In 200 words or less, describe this project, listing the estimated costs of the items of the planned project totaling up to \$600.
I want to make stations that would be hands-on extensions for each of the units I teach. In my classroom I have a, "MUST DO"/"CAN DO" board that my 5th graders follow throughout the week. Once they have finished their "MUST DO" assignments they have the opportunity to work in "Tinker Town" (a town that I created with materials where the students can build and create items) and Tinker Tubes (specific tubs I have created so children can build with stem focused toys). I have purchased all of the items to start this process, but I cannot afford to buy all the things on my wish list. I have attached a list of some of the items that would work with my curriculum units.
3. TOTAL cost of proposal **\$475.00**
