## PROPOSED REVISIONS: 8-5-2015

INTERROGATIONS BY SCHOOL OFFICIALS	Administrators, teachers, and other professional personnel may question a student regarding the student's own conduct or the conduct of other students. In the context of school discipline, students have no claim to the right not to incriminate themselves.
BY POLICE OR OTHER AUTHORITIES	For provisions pertaining to student questioning by law enforcement officials or other lawful authorities, see GRA(LOCAL).
LOCKERS AND VEHICLES	<p>Students have full responsibility for the security of their lockers and for vehicles parked on school property. It is the student's responsibility to ensure that lockers and vehicles are locked and that the keys and combinations are not given to others. Students shall not place, keep, or maintain any article or material that is forbidden by District policy in lockers or in vehicles parked on school property.</p> <p>School officials may search lockers or vehicles parked on school property if there is reasonable cause to believe that they contain articles or materials prohibited by District policy. Students shall be responsible for any prohibited items found in their lockers or in vehicles parked on school property.</p> <p>If a vehicle subject to search is locked, the student shall be asked to unlock the vehicle. If the student refuses, the District shall contact the student's parents. If the parents also refuse to permit a search of the vehicle, the District may turn the matter over to local law enforcement officials.</p>
USE OF TRAINED DOGS	<p>The District shall use specially trained nonaggressive dogs to sniff out and alert officials to the current presence of concealed prohibited items, illicit substances defined in FNCF(LEGAL), and alcohol. This program is implemented in response to drug- and alcohol-related problems in District schools, with the objective of maintaining a safe school environment conducive to education.</p> <p>Such visits to schools shall be unannounced. The dogs shall be used to sniff vacant classrooms, vacant common areas, the areas around student lockers, and the areas around vehicles parked on school property. The dogs shall not be used with students. If a dog alerts to a locker, a vehicle, or an item in a classroom, it may be searched by school officials. Searches of vehicles shall be conducted as described above.</p>
NOTICE	<p>At the beginning of the school year, the District shall inform students of the District's policy on searches, as outlined above, and shall specifically notify students that:</p> <ol style="list-style-type: none"><li>1. Lockers may be sniffed by trained dogs at any time.</li></ol>

2. Vehicles parked on school property may be sniffed by trained dogs at any time.
3. Classrooms and other common areas may be sniffed by trained dogs at any time when students are not present.

PARENT  
NOTIFICATION

The student's parent or guardian shall be notified if any prohibited articles or materials are found in a student's locker, in a student's vehicle parked on school property, or on the student's person, as a result of a search conducted in accordance with this policy.

METAL DETECTOR  
SEARCHES

**Students shall be notified at the beginning of each school year that they are subject to metal detector searches on a random basis.**

EQUITABLE USE

**To ensure that metal detector searches are conducted uniformly and equitably, school administrators shall:**

1. **Minimize inconvenience to students and interference with the educational process;**
2. **Maximize detection and deterrent value by regularly searching significant numbers of students;**
3. **Ensure that patterns are not established that would allow students to avoid searches by predicting the time and location of a search; and**
4. **Avoid the appearance that a particular student or group of students is either being favored or targeted by adopting schemes, well in advance of the search, that leave the operator of the metal detector an absolute minimum of discretion.**

ATHLETIC DRUG-  
TESTING PROGRAM

All students in grades 9–12 who participate in athletics shall be subject to a student drug-testing program. The purpose of the drug-testing program is to ensure the health and safety of District students and to serve as a deterrent to the use of drugs and alcohol by District students. By participating in the drug-testing program, each student shall have the risk of detection and its consequences to help offset the ordinary peer pressures concerning drug and alcohol abuse.

The program is not intended to be punitive. A positive test shall not be considered a violation of the Student Code of Conduct. However, students who test positive shall be subject to the consequences listed below.

CONSENT

All high school students participating in athletic activities shall be subject to a random selection method for identifying students who shall be tested. Each participant shall be required to provide the District with a written consent signed by both the student and his or her parent or legal guardian. Students in grades 9–12 who do not participate in athletic activities may participate in the drug-testing program on a volunteer basis with written permission from their parent or legal guardian. In addition, parents may request that their child be included in the next random testing. In this case, a written request shall be delivered in person, and the test shall be paid for by the parent or legal guardian at the time of the request.

shall be subject to random urine drug testing throughout the school year. The names of participants shall be drawn randomly by the vendor from the list of participating students. The participants' names may be drawn at any time between the start of the school year until the end of the school year in June. Through the use of urine samples, the drug-testing vendor laboratory shall be able to detect the presence of drugs taken prior to the test. Participating students who have been taking or who are taking medication shall provide verification (either by a copy of the prescription or by the doctor's authorization within 24 hours of the testing). Students who refuse to provide verification shall be subject to the consequences specified below for a "positive test." The drug-testing vendor shall provide the personnel to conduct the collecting, transporting, and testing, as well as randomly selecting the students to be tested.

REFUSAL TO TEST	Any time an athletic participant refuses to be randomly tested, the refusal shall be treated as a "positive test."
DILUTED / NITRITE / ADULTERATED TEST RESULT	A diluted drug test result shall be referred to the medical review officer (MRO) for clarification. The result may be that the student shall retest at the request of the MRO. A nitrite drug test result shall be considered a positive drug test result. An adulterated test sample shall be considered a positive drug test.
CONFIRMATION OF POSITIVE TEST RESULTS	Upon receipt of a positive test result, the drug-testing vendor shall contact the student's parent or guardian. The drug-testing vendor shall then contact a certified MRO to review and report positive test results. If a positive ruling has been confirmed by the MRO, the District's reporting contact shall be notified by the drug-testing vendor of a positive test confirmation.
CONSEQUENCES OF A POSITIVE TEST	All offenses shall be cumulative for the student's athletic career in the District.
FIRST OFFENSE	Upon a first offense of receiving a confirmed positive drug test, the District shall notify the student's parents or legal guardian. The principal shall hold a conference with the parent or legal guardian and the student.
