

General Education Board Report

May 2026

Over the past month, the General Education Department has engaged in meaningful reflection on the professional learning and coaching cycles implemented throughout the year. Through careful analysis of data and stakeholder feedback, we are identifying priorities and designing learning opportunities for next year that will best meet the evolving needs of our local districts.

In collaboration with Special Education, we continue to strengthen our partnership by aligning goals and student outcomes for the coming year. This shared work will help ensure cohesive support systems, consistent instructional practices, and improved outcomes for all students.

These aligned goals will serve as the foundation for our work moving forward. As we plan for the future, there is a strong sense of momentum and energy. It is an exciting time as we continue building capacity, strengthening partnerships, and focusing on meaningful growth for educators and students alike.

As the school year comes to a close, our GSRP students' last day will be May 15. We are extremely thankful for the dedication and commitment of our staff, who have provided students with an exceptional year of learning, growth, and support. Their efforts have made a lasting impact on our youngest learners and their families.
