Special to the Tribune,

Browning, Mar The Browning High School Basket Ball team was entertained at the Lions club dinner Wednesday evening. Talks were made by several of the Lions and responded to by Coach Huss and Steve La Buff captain of the winning team. The team and all subs were in attendance . The community were was unusually pleased with the good work done by the team in winning the local district tournament for the reason that remodelling of the public school gym has made it useless for the practice of the team. This made it necessary for the team to go daily to the gym at the Indian boarding school a distance of 8 miles for training. Some days it was no posible to m ke the trip on account of inclement weather. One night on the return trip the school bus in which the trip was made, broke down and the boys had to walke back to town in a drifting snow storm. As the Indian boarding school has been abandoned the gym was not always properly heated and . This shortened the practice time for them many days . Games with other teams had to be played there, resulting in few games for Browning in their own gym. On one occassion it was necessary to get the snow plow equipment to work all afternoon to open the road from Browning to the gym 8 miles from town and then keep the road open for the return.

All these and othere events of the season were recounted after the dinner with the Lions and the future doped for the Great Falls Tournament, with hopes expressed for the success of the team there instruments.
