SUBJECT: Dual Credit Welding Lab/Materials Fees - ECISD

RECOMMENDATION: Waive lab and materials fees for WLDG 1412 and WLDG 1428 for El Campo ISD dual credit students

BACKGROUND/RATIONALE:

Beginning fall 2021, WCJC and El Campo ISD will begin offering dual credit welding classes on the El Campo ISD high school campus. El Campo ISD has reserved district funding to purchase all instructional materials for their dual credit students. Thus, the fees attached to the dual credit welding courses should be waived for El Campo ISD dual credit students. Furthermore, fees for instructional materials should be waived for other school districts who cover the cost of said materials for dual credit courses taught on that district's campus. Effective fall 2021, MOUs with school districts will individually reflect any revisions to course fees.

Estimated Cost and Budgetary Support (how will this be paid for?): \$NA
