* The fee to participate in TASB's OnSite Energy Services is \$0.0015 per kilowatt-hour up to a maximum of \$10,000 per contract year, per entity. For instance, an entity with an annual usage of 1,000,000 kWh would pay an annual fee of \$1,500. In the interest of honesty and full transparency, this is the only fee that the TASB Energy Cooperative receives for its services, and it is shown on each and every monthly billing statement. If your entity uses in excess of 6,667,000 kWh annually, your entity would have met the \$10,000 maximum fee to the Cooperative. Any amount above this cap that is received by the Cooperative from your entity, will be refunded to you following the end of the contract year.
