Re: 2026-2027 Staff Development Waiver

The Texas Education Agency (TEA) requires that school districts establish annual calendars that include a minimum of 75,600 minutes of school (operation and instruction) for each school year. In addition, TEA permits school districts to apply for a waiver allowing for 2,100 minutes of the 75,600 to be used for staff development of employees. Coppell ISD Administration would like to apply for the 2,100 minute waivers for the 2026-2027 school year to provide a cushion and flexibility should circumstances arise that necessitate a need for these minutes to meet the 75,600 required each year.

Recommendation: The Coppell ISD Board of Trustees approve CISD Administration applying for the 2,100 minute staff development waiver for the 2026-2027 school year as presented.

An appropriate motion for Board action on the staff development waiver is as follows:  
"I move that the Board approve CISD Administration applying for the 2,100 minute staff development waiver for the 2026-2027 school year as presented."
