Citizens of Geneva Community Unit School District 304 President and Members of the Board of Education Geneva Community Unit School District 304 Geneva, IL 60134

The Annual Comprehensive Financial Report (ACFR) of Geneva Community Unit School District 304, Geneva, Illinois, for the fiscal year ended June 30, 2024, is hereby submitted. The report was prepared by the Business Services Office. The audit was completed on January 7, 2025, and the report was subsequently issued.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The ACFR is presented in three sections: Introductory, Financial and Statistical. The Introductory section includes the transmittal letter, the District's organizational chart, and a list of principal officials. The Financial section includes a Management's Discussion and Analysis (MD&A), District Wide Financial Analysis, Budgetary Highlights, Long-term Debt, Basic Financial Statements, and Notes to Basic Financial Statements, as well as the independent auditor's report on the financial statements and schedules. The statistical section includes selected unaudited financial and demographic information, generally presented, on a multi-year basis.

Geneva Community School District 304 is required to undergo an annual single audit in conformity with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principal, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the schedule of Federal financial assistance, findings and recommendations, and independent auditor's report on the internal control structure and compliance with applicable laws and regulations are included in a separate report.

GENERAL DISTRICT INFORMATION

The first Geneva school started in 1836 in the Sterling Family's log cabin with only eleven students. The District continued to grow, and in 1858 Geneva was officially incorporated as a village. In 1873 an East Side and West Side School consolidated into District 2, with a population close to 1,000 residents. In 1952 the Community High School District

consolidated with the surrounding Elementary School District to become Geneva Community Unit School District 304.

The District provides for the education of students in pre-kindergarten through grade twelve and maintains nine buildings. Harrison Street Elementary School (1928), Western Avenue Elementary School (1964), Mill Creek Elementary School (1995), Heartland Elementary School (2002), Fabyan Elementary School (2009), and Williamsburg Elementary School (2008) are the sites for kindergarten through fifth grades. Geneva Middle School South (1993) and Geneva Middle School North (2006) are the sites for sixth through eighth grade. Geneva High School (1958) houses the ninth through twelfth grade students. Geneva Early Learning Program preschool is housed at Fabyan Elementary School (2017). For fiscal year 2023-2024, the District student enrollment of 5,007 students was housed in nine separate buildings, with a certified staff of 675 full and part-time professionals.

The enrollment for the 2023-2024 school year, based on the fall SIS (Student Information System) report, was 5,077. A slight decrease from the previous year's enrollment of 5,119 students. The District experienced decreased enrollment during Covid that has since stabilized.

Geneva Community School District 304 is located approximately 40 miles west of downtown Chicago, Illinois, and covers an area of 23.41 square miles. The District population served is estimated at 28,500, which include the City of Geneva, a portion of Batavia Township and a portion of Blackberry Township. In general, the community is considered affluent and located in an area that is ranked as one of the top in the country in terms of economic growth and development.

The District anticipates changes in Geneva's population and demographics between 2023 to 2028. The 2020 census lists Geneva, the District's largest city, with a current population of 21,247 residents. The median household income is \$132,799. The median home value of \$443,500 continues to move upward with increased property values.

FINANCIAL INFORMATION

Geneva Community Unit School District 304 conforms to Generally Accepted Accounting Principles as promulgated by the GASB and the Unites States of America (GAAP) as applicable to governmental units. The District reports on a modified accrual basis of accounting. The District's budget and accounting records are generally maintained on the basis of both cash receipts and disbursements. The notes to financial statements expand upon these and all other accounting policies. All the District's funds are presented in this report and have been audited by the District's Certified Public Accountants, Wipfli LLP. Their opinion is unmodified.

In developing and evaluating the District's accounting system, much consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding (1) the safeguarding of assets against

fraud/loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits derived and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. The results of the evaluation for the fiscal year ended June 30, 2024, provide no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

Budget Control

The District maintains sound budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of all funds are included in the annual appropriated budget, and budgetary control is maintained at the fund level.

Monthly variances with the budget at this level, as well as more detailed program and line-item levels, are provided to the Board with the Treasurer's Report.

Activities of the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Fund are included in the annual appropriated budget. The level of budgetary control is established at the individual fund level.

The District also maintains an encumbrance accounting system as one process for accomplishing budgetary control. Encumbered amounts lapse at year-end, on June 30.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The Board of Education policy for investing allows the District to invest funds in a prudent, conservative, and secure manner. Cash temporarily idle during the year is invested in demand deposits, certificates of deposit, and/or an account with the Illinois School District Liquid Asset Fund Plus (ISDLAF+), timing investment maturities to actual cash need. Portions of the District's investments in ISDLAF+ are in the very highest grade of commercial paper and interest-bearing money market accounts.

OTHER INFORMATION

Long-Term Debt Restructuring

In 2017, the District, through the Board of Education, refunded (refinanced) \$42,905,000 in bonds, and again with 2019 refunding (refinanced) of \$2,600,000 created savings with lower interest rates, but also leveled Debt Service payments. Without the funding the Debt Service

payments would have increased from \$15 million per year to \$25 million per year. Since 2011, \$31 million has been abated to taxpayers, keeping the Debt Service property rate flat. The final phase of the District's long-term Debt Restructuring Plan occurred in 2019. As part of the refunding process, the District received an AA+ Rating from Standard and Poor.

Independent Audit

The School Code of Illinois and the District's adopted policy require an annual audit of the book of accounts, financial records, and transactions of all funds of the District. The audit was performed by the independent certified public accountants that are selected by the District's Board of Education. This requirement has been complied with, and the auditors' opinion has been included in this report.

Goals and Initiatives

Business Services: Develop an efficient and effective budget; compete an AFR and ACFR; conduct and present projection modeling; identify spending changes to improve the District's financial outlook; implement a new fleet management plan for bus type and fuel source, improve the quality and offerings in the food service program, complete and submit the ACFR to ASBO International.

Learning and Teaching: MAP Assessment Growth, SAT performance, IAR, ISA, ACCESS and School Improvement Plan updates. Develop and evaluate curriculum, special programs, specifically accelerated enrichment, reading intervention and support for ELL. Implement and purchase new textbooks.

Human Resources: Actively recruit, train, and retain a quality work force; meet compliance standards for district wide trainings; complete timely staff evaluations; successfully negotiate working and bargaining agreements.

Student Services: Reach State Performance Plan indicators, provide student access to preventative and responsive services, and meet the individual needs of students from early childhood through high school.

Technology: Develop a comprehensive technology plan to sustain 1:1 learning for all K-12 students and reduce cyber threats with training and awareness programs. Prepare and manage the migration of a software system used by technology, business services, and human resources.

Communications: Engage and inform stakeholders; utilize multiple communication platforms; collect community survey data; complete a strategic plan; utilize a communications task force to share goals, values, trust, and support.

Operational Services: Complete scheduled Health, Life, Safety projects; develop short- and long-term capital improvement plans; explore cost savings and efficient products, complete a demographic study, and lastly, complete a district strategic plan.

Acknowledgement and Appreciation

In 2023, The District received its 35th Certificate of Excellence in Financial Reporting Award. The District is submitting the 2024 ACFR for review for the Certificate of Excellence Award for Fiscal Year 2024.

We thank the members of the Board of Education for their interest and support in planning and conducting the financial operations of Geneva Community Unit School District 304 in both a highly responsible and effective manner. The preparation of this report could not have been accomplished without the services and support of the administration and Business Services department.

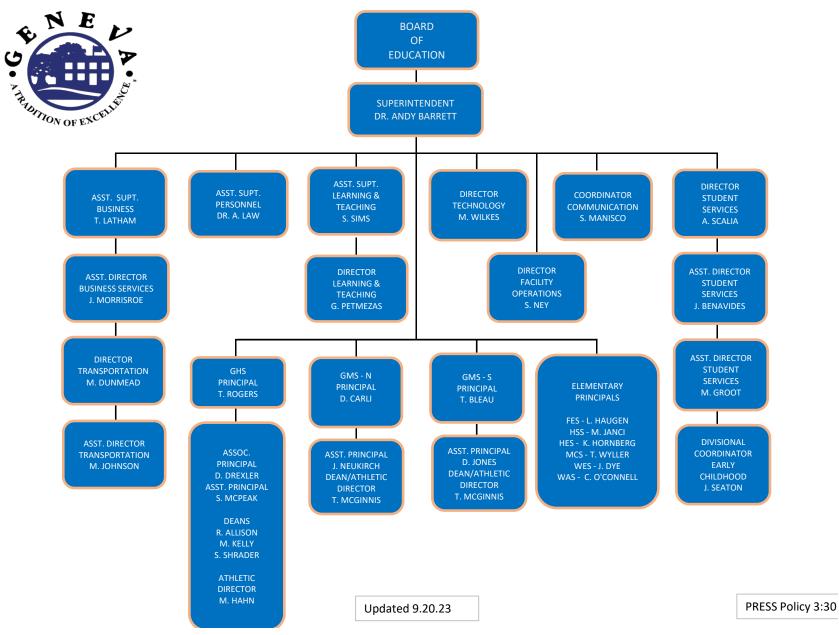

Respectfully submitted,

Dr. Andrew Barrett
Superintendent of Schools

Independent Auditor's Report

Board of Education Geneva Community Unit School District No. 304 Geneva, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Geneva Community Unit School District No. 304 (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Geneva Community Unit School District No. 304 as of June 30, 2024, and respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Geneva Community Unit School District No. 304 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Geneva Community Unit School District No. 304's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
 of the Geneva Community Unit School District No. 304's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Geneva Community Unit School District No. 304's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that a management's discussion and other required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 7, 2025 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Geneva Community Unit School District No. 304's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Year Ended June 30, 2024

The discussion and analysis of Geneva Community Unit School District 304's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2024. Management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. Certain comparative information between the current year and the prior year is required to be presented in the Management's Discussion and Analysis (the "MD&A"), however not in the initial year of implementation.

Financial Highlights

- As of June 30, 2024, the District fund balance totaled \$82,428,373. Of this amount, \$61,161,032 may be used to meet the District's general ongoing future obligations in the general fund.
- As of June 30, 2024, the District's total fund balance decreased by \$1,979,202 from the previous fiscal year.
- As of June 30,2024, the District's operating funds, which include all governmental funds except the debt service fund, showed a fund balance of \$74,229,867 or 56.8% of the operating fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements,
- · Fund financial statements, and
- Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets plus deferred outflows and liabilities plus deferred inflows, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as the underlying event giving rise to the change occurring, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Management's Discussion and Analysis For the Year Ended June 30, 2024

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities, that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities, and transportation services.

Fund financial statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the District's major funds. The District considers the General Fund (Educational, Operations and Maintenance, Working Cash and Tort Immunity Accounts) and Debt Service Funds to be the Major Funds. Detail of the District's non-major funds (Transportation, Municipal Retirement/Social Security, Capital Projects and Fire Prevention & Safety) can be found in the "Combining and Individual Fund Financial Statements and Schedules" portion of the report.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Management's Discussion and Analysis For the Year Ended June 30, 2024

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the school district. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements. The District's fiduciary funds are comprised of scholarship accounts.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

District-Wide Financial Analysis

Table 1

The total cost of all programs and services was \$119.9 million. Operating grants and contributions revenues increased by \$1.9 million due to an increase in federal grant revenues reported in the Government-Wide financial statements. The District's expenses primarily related to instruction, instructional support, and transporting students (72.0%) (See Table 2). The District also incurred expenses for maintaining its capital assets in operations and maintenance (11.4%) and for administration (8.9%) and other expenses (7.7%), which include debt service.

Total revenues exceeded expenses, increasing net position by \$20.8 million over last year.

Management's Discussion and Analysis For the Year Ended June 30, 2024

Financial Analysis of the District's Funds

The District's governmental funds have a combined fund balance of \$82,428,373, a decrease of 2.3% over the prior year.

Revenues for the District's General Fund's Educational Account, excluding state "on-behalf" revenues, can be broken down by source, and can be shown in relation to the prior year's receipts:

Educational Account Revenues

	2023-2024	2022-2023	
	Actual	Actual	Increase
	Revenues	Revenues	(Decrease)
Local sources	\$ 74,798,035	\$ 71,456,432	4.7%
State sources	3,248,753	3,314,561	-2.0%
Federal sources	2,782,586	3,049,659	-8.8%
Total	\$ 80,829,374	\$ 77,820,652	3.9%

Management's Discussion and Analysis For the Year Ended June 30, 2024

Local revenues include ad valorem property tax revenues, investment income, student fee collections, tuition payments, and corporate personal property replacement taxes (CPPRT).

State revenues include unrestricted grants such as Evidence Based Funding, and restricted categorical grants for special education, school lunch aid, driver education, vocational education, and library resources. The State did not disburse all payments vouchered by the State for fourth quarter private facility and transportation. Payments were recorded as revenues and receivables in fiscal year 2024.

Federal Revenues are derived from grant programs which include the Special Milk Program, Title Programs through No Child Left Behind, Medicaid funds, Vocational funds, and Special Education funds through Individuals with Disabilities Education Act (I.D.E.A).

Expenditures for the General Fund's Educational Account, excluding state "on behalf" expenditures, can be delineated by function:

Educational Account Expenditures

	2023-2024			2022-2023	Expenditure
		Actual		Actual	Increase
		Expenditures		Expenditures	(Decrease)
Instruction	\$	52,351,632	\$	49,260,913	6.3%
Support Services		21,189,145		20,658,988	2.6%
Community Services		138,976		82,397	68.7%
Non Programmed		2,993,493		3,542,005	-15.5%
Total	\$	76,673,246	\$	73,544,303	4.3%

Management's Discussion and Analysis For the Year Ended June 30, 2024

Instructional Service increases in FY 2024 were due to staffing, salary and employee insurance benefit increases per negotiated agreements. The District maintains funding to meet the needs in Special Education, Summer School, and Accelerated and Enrichment programs. Student Support Services continue to meet the needs for services in social emotional learning as addressed through professional development. Community Services increased from the prior year as many opportunities for programming were restored post COVID-19. The decrease in the non-programmed area is a result of decreased costs, enrollment, and support for special needs student's enrollment at our Mid Valley Special Education Co-operative and private placement students as more of these programs have been brought within the district.

As of June 30, 2024, the General Fund's Operation & Maintenance Account had a fund balance of \$10,432,305. Revenues in the General Fund's Operations and Maintenance Account were higher than the budget by \$715,339.

The General Fund's Operation & Maintenance Account expenditures as compared to the previous fiscal year are as follows:

Operations & Maintenance Fund Expenditures

	2023-2024 Actual Expenditures	2022-2023 Actual Expenditures	Expenditure Increase (Decrease)
Salaries	\$ 4,855,336	\$ 4,727,910	2.7%
Benefits	952,653	881,999	8.0%
Purchased Services	3,409,082	2,836,082	20.2%
Supplies	2,439,503	2,619,879	-6.9%
Capital Outlay	348,457	190,089	83.3%
Other	1,094	690	58.6%
Non-Capitalized Equipment	430,704	367,239	17.3%
Total	\$ 12,436,829	\$ 11,623,888	7.0%

The General Fund's Operation and Maintenance Account expenditures increased for FY 2024. Salary increases from FY 2023 were a result of a minimum wage increase, wage inflation, and working agreements. Benefits for employees realized large cost increases in PPO, HMO, and dental benefits. Purchased services increased 20.2% because of architectural and engineering fees, repair and maintenance, and service agreements. Supplies decreased 6.9% as the need for supplies were reduced in a post covid environment. Capital Outlay increased 83.3% for land acquisition to expand the Transportation Center and improvement to the existing parking area. Operations and Maintenance Non-Capital equipment increased 17.3% to acquire replacement and new equipment that had reached its useful life.

As of June 30, 2024, the Debt Service Fund had a fund balance of \$8,198,506. The Debt Service Fund balance increased by \$966,213 for the year end June 30, 2024. The District repaid principal of \$9,766,164 and paid interest and fees of \$4,775,513 in FY24.

As of June 30, 2024, the Transportation Fund had a fund balance of \$7,267,257. The Transportation Fund balance decreased by \$2,199,595 for the year ended June 30, 2024. This fund balance decrease was due to bus purchases and capital improvements.

As of June 30, 2024, the General Fund's Working Cash Account had a fund balance of \$16,151,911. The District maintains the General Fund's Working Cash Account for cash-flow purposes. The General Fund's Working Cash Account earned interest income of \$749,486.

Management's Discussion and Analysis For the Year Ended June 30, 2024

General Fund Budgetary Highlights

The District budgeted for excess expenditures of \$2,702,655 over revenues in the General Fund.

- General Fund revenues were over budget by \$3,485,124.
 This was partly due to on behalf revenues budgeted \$287,050 less than actual. Excluding the on behalf payments the revenues were over budget by \$3,198,074. Property Tax Receipts, Food Services, and Interest Income were major areas with excess of budgeted amounts contributing to the overage.
- General Fund expenditures were under budget by \$2,108,501.
 Excluding on behalf payments expenditures were \$2,395,551 under budget. Areas that contributed to being under budget included: staffing costs, employee benefits, purchased services, supplies and materials, and capital and non-capital outlay.

Capital Asset and Debt Administration

Capital assets

Table 3 presents net capital assets as of June 30, 2024 and 2023.

Table 3		
Capital Assets (net of depreciation)		
(in millions of dollars)		
	2024	2023
Land and Construction in Progress	17.2	 7.3
Buildings	81.5	85.9
Equipment & Other	6.4	5.6
Total	\$ 105.1	\$ 98.8

Long-term debt

The District has issued general obligation bonds in fiscal years 2007, 2016, 2017 and 2019 to fund capital improvements to the District's facilities, to build new facilities, and to establish a working cash fund for cash flow purposes. The total outstanding principal is noted in Table 4. In addition to the principal payments, interest payable is also due on the outstanding bonds. The District is governed by The School Code of Illinois for the amount of debt it may have on its books at any one time. A unit district is limited to 13.8% of the most recently published, by the Kane County Clerk, taxable property. The maximum time a District may structure the repayment of any new debt issued is 20 years.

Management's Discussion and Analysis For the Year Ended June 30, 2024

Table 4 Outstanding Long-Term Debt (in millions of dollars)			
			Increase
	2024	2023	(Decrease)
General obligation bonds, leases & notes	\$ 94.0	\$ 105.5	-10.9%
Pension and OPEB liabilities	21.5	22.7	-5.3%
Total	\$ 115.5	\$ 128.2	-9.9%

For additional information on capital assets and debt administration, please refer to the accompanying notes to Basic Financial Statements.

Factors Bearing on the District's Future

The District continues its efforts to review and reduce expenses to protect the District's fund balance reserve. This has enabled the District to continue to maintain its "tradition of excellence" that prepares our students to become self-directed, collaborative, creative and adaptive citizens. The District has provided relief to taxpayers and community members by lowering the debt services portion of their property taxes through refunding and retiring bonds. The District has experienced a declining student enrollment. Ongoing review of program needs, and operation efficiencies is a core component of the District's efforts to ensure the highest level of interest earnings income. Evidence Based Funding formula is anticipated to be constant as a Tier 4 district receiving very limited levels of new resources. ESSER funding will come to an end and the District will return to local funding that may increase expenditures.

Technology Plan outlays are anticipated to increase slightly in the new school year and then continue to grow at a managed pace to support the replacement of technology infrastructures. The District Facility Capital Plans forecasts \$11.5 million in funding to address aging facility-based infrastructure, facility improvements, and needed repairs as roofs, equipment, and facility components reach the end of their lifecycles. Human resource costs are also expected to rise in accordance with approved collective bargaining and working agreements. Additionally, employee benefit costs are anticipated to rise over the coming years with continued increases for the FY2024-2025 school year. The District is prepared to continue to manage overall cashflow with laddered investments while balancing inflationary increases. Any property tax freeze or pension shift would force the District to restructure district revenue and expenditure expectations, and lead to impacts on both operational and educational experience required for their success. The District will continue to monitor its expenses with a continuous improvement mindset searching for enhancements in experiences for our students while seeking operational efficiencies.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Assistant Superintendent for Business Services, 227 North Fourth Street, Geneva, Illinois 60134.

Fund balances, beginning of year	58,277,655	7,232,293	18,897,627	84,407,575
Fund balances, end of year	\$ 61,193,910	\$ 8,198,506	\$ 13,035,957 \$	82,428,373

Reconciliation of the Statement of Revenues, Expenditures and Changes In Fund Balance of Governmental Funds to the Statement of Activities

Net change in fund balances - governmental funds		\$ (1,979,202)
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay Depreciation expense	\$ 11,695,987 (5,480,808)	6,215,179
Because some of the governmental revenues will not be collected for several months after the District's fiscal year ends, they are not considered "available" revenues and are not accrued in the governmental funds. This is the change in unavailable revenue.		(5,767)
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of: Change in net pension liability Change in deferred inflows/outflows related to pensions Change in net OPEB liability Change in deferred inflows/outflows related to OPEB	1,832,188 (956,574) (675,753) 5,666,591	5,866,452
The governmental funds record bond and loan proceeds as other financing sources, while repayment of bond and loan principal is reported as an expenditure. Also, governmental funds report the premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of bonds and loans and related items is as follows:		
Repayment of bond principal Repayment of lease principal	9,725,000 41,164	
Amortization of deferred loss on refunding	(723,918)	
, and detailed of deferred loss of returning	1,747,380	10,789,626

Notes to Basic Financial Statements

Note 1: Summary of Significant Accounting Policies

Geneva Community Unit School District No. 304 (the District) is governed by an elected Board of Education. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies, consistently applied in the preparation of the accompanying financial statements is described below.

a. The Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is legally separate organization for which the District is financially accountable and has a financial benefit/burden relationship, and other organizations for which nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District. The District also may be financially accountable if an organization is fiscally dependent on the District, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government or (3) a jointly appointed board. There are no component units, as defined by GASB, which are included in the District's reporting entity. Even though there are local government agencies within the geographic area served by the District, such as the municipality, library and park district, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them. The District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

b. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The following summarizes the fund types used by the District:

Governmental funds include the following fund types:

General Fund - The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, Tort Immunity Account and Working Cash Account, is used to account for the revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those accounted for in other funds.

Notes to Basic Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

b. Fund Accounting (Continued)

Educational Account – These accounts are used for most of the instructional and administrative aspects of the District's operations, as well as providing school lunch services to students. The revenue consists primarily of local property taxes, state government aid and student registration fees and lunch receipts from the District food service program.

Operations and Maintenance Account – These accounts are used for expenditures made for operation, repair and maintenance of District property. Revenue consists primarily of local property taxes.

Tort Immunity Account – This fund accounts for revenues and expenditures related to tort immunity. Revenue is primarily derived from local property taxes.

Working Cash Account – This fund accounts for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flow resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under the Illinois Compiled Statutes. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund's Educational Account, upon Board approval.

Special Revenue Funds - Special Revenue Funds account for the proceeds of specific revenue sources (other than Debt Service and Capital Projects Funds) that are legally restricted to expenditures for specified purposes. The District's Special Revenue Funds are the Transportation and Municipal Retirement/Social Security Funds.

Transportation Fund – This fund accounts for the revenue and expenditures relating to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund – This fund accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

Debt Service Funds - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Debt Service Fund - The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Since there are no legal requirements on bond indentures, which mandate that a separate fund be established for each bond issue, the District maintains one Debt Service Fund for all bond issues.

Notes to Basic Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

b. Fund Accounting (Continued)

Capital Projects Funds - Capital projects funds are used to accuont for an report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Capital Projects Fund - The Capital Projects Fund accounts for construction projects and renovations financed through serial bond issues.

Fire Prevention and Safety Fund - This fund accounts for the receipt and disbursement of monies used to improve the safety of capital facilities.

Fiduciary Fund Type

Scholarship Funds - The Board of Education has the ultimate responsibility for the Scholarship Funds; they are not local education funds. The Scholarship Funds account for financial resources to provide financial assistance to worthy graduates of the District to continue their education beyond high school.

The District reports the following funds as major governmental funds:

General Fund Debt Service Fund

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District has adopted a policy to net the interfund receivables and payables for combined totals used to determine the major funds. Consequently, the interfund loan balances, which net to zero, are not utilized to determine major funds.

c. Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. All of the District's operating activities are considered "governmental activities", that is, activities that are normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities".

Note 1: Summary of Significant Accounting Policies (Continued)

c. Basis of Presentation (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular Function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Net Position

Government-Wide Statements

Net position is classified and displayed in three components:

- 1. Net investment in capital assets. Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.
- 2. Restricted. Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.
- 3. Unrestricted. Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1: Summary of Significant Accounting Policies (Continued)

c. Basis of Presentation (Continued)

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Interest associated with the current fiscal period is considered to be susceptible to accrual and so has been recognized as a revenue of the current period. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All other revenue items are considered to be measurable and available only when the District receives the cash.

d. Deposits and Investments

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. The District has adopted a formal written investment and cash management policy. The institutions in which investments are made must be approved by the Board of Education.

The District maintains a cash and investment pool that is available for use by all funds. In addition, investments may be separately held by some of the District's funds. Each fund type's portion of the deposits, unrestricted investments, and cash on hand is displayed on the combined balance sheet as "Cash and Investments", as applicable.

e. Property Taxes

The District must file its tax levy ordinance by the last Tuesday in December of each year.

The District's property tax is levied each year on all taxable real property located in the District. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year.

The Kane County Assessor is responsible for the assessment of all taxable real property within Kane County except for certain railroad property which is assessed directly by the State. The County Clerk computes the annual tax rate by dividing the levy into the assessed valuation of the taxing district. The County Clerk then computes the rate for each parcel of real property by aggregating the tax rates of all units having jurisdiction over that parcel. Property taxes are collected by the Kane County Collector who remits to the units their respective shares of the collections. Taxes levied in one year become due and payable in two installments on June 1 and September 1 during the following year. Substantial collections are received by the District in June and September.

Notes to Basic Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

e. Property Taxes (Continued)

The property tax levy receivable collected within the current year or expected to be collected within 60 days of year end to be used to pay liabilities of the current period less the taxes collected within 60 days after the end of the previous fiscal year is recognized as revenue. The tax receivable less the amount expected to be collected within 60 days of year end to be used to pay liabilities of the current period is reflected as unearned revenue. All property taxes receivable over one year old have been written off.

f. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the extent required by Illinois law in the Municipal Retirement/Social Security Fund with the balance allocated to funds at the discretion of the District.

g. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the Governmental Funds. All encumbrances are canceled at year end, and, if necessary, are reinstated at the beginning of the subsequent fiscal year.

h. Capital Assets

Capital assets, which include land, buildings, improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$3,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Buildings, improvements, and furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

Assets	Years	
Buildings and building improvements	40-50 years	
Land improvement	20 years	
Furniture, equipment and vehicles	3-10 years	

Note 1: Summary of Significant Accounting Policies (Continued)

i. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

j. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

k. Vacation and Sick Leave

Employee vacation and sick leave, including salary related payments, is recorded when it is paid. Accumulated unpaid employee vacation and sick leave which was earned prior to the current fiscal year but unused at the end of the current fiscal year is not significant. Vacation and sick leave is granted on a yearly basis based on employee position and years of service. Vacation and sick leave will be paid with future tax collections and therefore has not been reported as a current liability of the governmental funds.

I. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF), together "the Plans," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1: Summary of Significant Accounting Policies (Continued)

m. Other Post-Employment Benefits ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB expense, information about the fiduciary net position of the District's OPEB plan and additions to/deductions from this fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, OPEB payments (including refunds of employee contributions) are recognized when due and payable in accordance with the OPEB terms. Investments are reported at fair value.

n. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

o. Leases

The District is a lessee in multiple noncancellable leases of equipment. The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the
 measurement of the lease liability are composed of fixed payments and purchase option price that the
 District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Leases assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Notes to Basic Financial Statements

Note 2: Cash and Investments

a. Deposits and Custodial Credit Risk

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. The District has adopted a formal written investment and cash management policy. The institutions in which investments are made must be approved by the Board of Education.

At June 30, 2024, the carrying amount of the District's deposits totaled (including scholarship funds of \$436,799), which include both cash and certificates of deposits totaled \$59,722,856 and the bank balances totaled \$59,296,260. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's investment policy requires pledging of collateral for all deposits in excess of FDIC limits to be held by a third party custodian. All deposits were either insured or collateralized.

b. Investments

As of June 30, 2024 the District had the following investments:

			Investment Maturities (in Years)								
	Fair Value	Less than 1	1 - 5	6 - 10	Percent of Portfolio	Applicable Agency Rating					
Municipal Bond Securities Illinois School District	\$ 2,999,657	\$ 2,999,657 \$	- \$	-	10.1 %						
Liquid Asset Fund U.S. Government	24,555,807	24,555,807	-	-	82.5 %						
Agencies	2,221,687	1,974,707	246,980	-	7.5 %						
Total investments	\$ 29,777,151	\$ 29,530,171 \$	246,980 \$	-	100.0 %						

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Note 2: Cash and Investments (Continued)

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an investment pool created and regulated by the Illinois General Assembly. The fair value of the District's investment in ISDLAF+ has been determined using the net asset value (NAV) per share (or its equivalent) of the investments. The NAV of the Liquid Class and MAX Class are determined as of the close of business on each Illinois banking day. The Multi-Class Series invests in high-quality short-term debt instruments (money market instruments), and shares may be redeemed on any Illinois banking day. The Term Series invest in high-quality debt instruments, which are generally money market instruments but may include instruments with a maturity over one year, and shares may be redeemed with seven days' advance notice. There were no known restrictions on redemption of the District's investments as of June 30, 2024.

Credit Risk. The District's investments are rated as shown above by the applicable rating agency.

Foreign Currency Risk. The District held no foreign investments during the fiscal year.

Concentration of Credit Risk. The District places no limit on the amount the District may invest in any one issuer. More than 5 percent of the District's investments are concentrated in specific individual investments. The above table indicates the percentage of each investment to the total investments of the District.

Notes to Basic Financial Statements

Note 3: Capital Assets

Governmental activities capital asset balances and activity for the year ended June 30, 2024, were as follows:

Governmental Activities	Balance 7/1/2023	Additions	Deletions	Balance 6/30/2024
Carrital access mat being democrated.				
Capital assets, not being depreciated: Land	\$ 7,304,610 \$	- \$		\$ 7,304,610
Construction in Progress	۶ 7,304,010 ş	9,948,427	- :	9,948,427
Total capital assets, not being depreciated	7,304,610	9,948,427		17,253,037
Total capital assets, flot being depreciated	7,304,010	9,940,427		17,233,037
Capital assets, being depreciated:				
Buildings	180,701,499	-	-	180,701,499
Improvements other than buildings	4,685,456	-	-	4,685,456
Equipment	35,066,361	1,768,703	(21,143)	36,813,921
Right-to-use asset - equipment	334,408	-	-	334,408
Total capital assets, being depreciated	220,787,724	1,768,703	(21,143)	222,535,284
Accumulated depreciation:				
Buildings	(94,757,237)	(4,483,199)	-	(99,240,436)
Improvements other than buildings	(3,376,813)	(199,203)	-	(3,576,016)
Equipment	(30,797,310)	(757,242)	-	(31,554,552)
Right-to-use asset - equipment	(293,244)	(41,164)	-	(334,408)
Total accumulated depreciation	(129,224,604)	(5,480,808)	-	(134,705,412)
Total capital assets, being depreciated, net	91,563,120	(3,712,105)	(21,143)	87,829,872
Governmental activities capital assets, net	\$ 98,867,730 \$	6,236,322 \$	(21,143)	\$ 105,082,909

Depreciation expense was charged to functions of the District as follows:

Instructional Services	
Regular programs	\$ 2,466,365
Special programs	493,273
Supporting Services	
Pupils	328,848
Instructional staff	274,040
General administration	219,232
School administration	328,848
Business	219,232
Operations and maintenance of facilities	54,808
Transportation	1,041,354
Central	 54,808
	\$ 5,480,808

Notes to Basic Financial Statements

Note 4: Long-Term Debt

The following is a summary of the components of long-term debt and related transactions of the District for the year ended June 30, 2024:

	Balance 7/1/2023	Additions	Reductions	Balance 6/30/2024	mounts due Within One Year
General Obligation Bonds Payable:					
Series dated July 1, 2007A	\$ 17,685,000	\$ -	\$ (7,190,000) \$	10,495,000	\$ 10,495,000
Series dated October 26, 2016	32,390,000	-	-	32,390,000	-
Series dated October 19, 2017	42,905,000	-	-	42,905,000	-
Series dated October 17, 2019	2,535,000	-	(2,535,000)	-	-
Unamortized Premium	9,992,997	-	(1,747,380)	8,245,617	-
Leases	41,164	-	(41,164)	-	-
Net Pension Liability - TRS	3,531,914	83,706	-	3,615,620	-
Net Pension Liability - IMRF	7,878,785	-	(1,915,894)	5,962,891	-
Net OPEB Liability - THIS	10,715,709	648,959	-	11,364,668	-
Net OPEB Liability - Healthcare					
Plan	 543,418	26,794	-	570,212	<u>-</u>
Total	\$ 128,218,987	\$ 759,459	\$ (13,429,438) \$	115,549,008	\$ 10,495,000

The District's net other postemployment benefits (OPEB) liabilities and net pension liabilities have typically been liquidated by the General Fund.

a. Bonds Payable

Long-term debt at June 30, 2024 is comprised of the following:

July 1, 2007, \$85,820,000 Site and Construction and Refunding Bond Issue due in annual installments of \$2,650,000 to \$15,705,000 through 2027, interest rates of 5.00% to 9.00%	\$	10,495,000
October 26, 2016 $$32,390,000$ Refunding Bond Issue due in annual installments of $$3,825,000$ to $$7,855,000$ through 2030, interest rates of 2.50% to 5.00%		32,390,000
October 19, 2017 $$42,905,000$ Refunding Bond Issue due in annual installments of $$3,990,000$ to $$14,035,000$ through 2031, interest rates of 3.00% to 5.00%	_	42,905,000
Total Bonds Payable at June 30, 2023	\$	85,790,000

Notes to Basic Financial Statements

Note 4: Long-Term Debt (Continued)

b. General Obligation Bonds Payable

At June 30, 2024, the District's annual cash flow requirements for retirement of bond principal and interest were as follows:

Fiscal Year Ending June 30,		Principal	Interest	Total
2025	\$	10,495,000 \$	3,802,150 \$	14,297,150
2026		11,125,000	3,051,751	14,176,751
2027		11,680,000	2,481,626	14,161,626
2028		12,265,000	1,922,276	14,187,276
2029		12,800,000	1,358,676	14,158,676
2030 -2031		27,425,000	952,263	28,377,263
				_
Total	\$	85,790,000 \$	13,568,742 \$	99,358,742

The District is subject to the <u>Illinois School Code</u>, which limits the amount of certain indebtedness to 13.8% of the most recent available equalized assessed valuation of the District. As of June 30, 2024, the statutory debt limit for the District was \$241,106,933 providing a debt margin of \$163,515,439 after taking into account \$8,198,506 available in the Debt Service Fund.

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

a. Teachers' Retirement System of the State of Illinois (TRS)

Plan Description

The District participates in the TRS. TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/acfrs/fy2023; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2026. One program allows retiring Tier 1 members to receive a partial lump-sum in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2023, was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf contributions to TRS. The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2024, State of Illinois contributions recognized by the District were based on the State's proportionate share of the pension expense associated with the District, and the District recognized revenue and expenditures of \$21,875,602 in pension contributions from the State of Illinois.

2.2 formula contributions. The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2024 were \$265,156, and are deferred because they were paid after the June 30, 2023 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2024, the employer pension contribution was 10.60% of salaries paid from federal and special trust funds. For the year ended June 30, 2024, salaries totaling \$405,110 were paid from the federal and special trust funds that required employer contributions of \$42,942. These contributions are deferred because they were paid after the June 30, 2023 measurement date.

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2024, the employer paid \$59,167 in payments TRS for employer contributions due on salary increases in excess of 6 percent and made no payments for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District follows below:

District's proportionate share of the net pension liability	\$	3,615,620
State's proportionate share of the net pension liability associated with the District	3	12,029,877
Total	\$ 3	315,645,497

The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2023 and rolled forward to June 30, 2023. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2023, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2023, the employer's proportion was 0.0043%, which was a increase of 0.0001% from its proportion measured as of June 30, 2022.

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

For the year ended June 30, 2024, the District recognized pension expense of \$26,291,496 and revenue of \$26,291,496 for support provided by the state. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	(Deferred Outflows of	Deferred Inflows of
		Resources	Resources
Difference between expected and actual experience	\$	15,030	\$ 14,575
Changes in assumptions		12,333	3,181
Net difference between projected and actual earnings in OPEB plan investments Changes in proportion and differences between District contributions and		-	103
proportionate share of contributions		1,335,157	1,047,503
Total deferred amounts to be recognized in OPEB expense in future periods		1,362,520	1,065,362
District's contributions subsequent to the measurement date		367,265	_
Total	\$	1,729,785	\$ 1,065,362

\$367,265 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows in these reporting years:

	C	t Deferred Dutflows nflows) of
Fiscal Year	-	esources
2024	۲.	(107 012)
2024 2025	\$	(187,813) 221,916
2026		275,491
2027		(18,054)
2028		5,618
Total	\$	297,158

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.5 percent

Salary increases Varies by amount of service credit

Investment rate of return 7.00% net of pension plan investment expense, including inflation

In the June 30, 2023 actuarial valuation, mortality rates were based on the PubT-2010 Table with appropriate adjustments for the TRS experience. The rates are based on a fully-generational basis using projection table MP-2020. In the June 30, 2022 actuarial valuation, mortality rates were also based on the PubT-2010 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2020.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global Equity	37.0 %	5.4 %
Private Equity	15.0 %	8.0 %
Income	26.0 %	4.3 %
Real Assets	18.0 %	4.6 %
Diversifying Strategies	<u>4.0</u> %	3.4 %
Total	<u>100.0</u> %	

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

Discount Rate

At June 30, 2023, the discount rate used to measure the total pension liability was 7.0%, which was the same as the June 30, 2022 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, the pension plan's fiduciary net position at June 30, 2023 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

				Current		
	19	6 Decrease	Dis	scount Rate	1	.% Increase
		(6.00%)		(7.00%)		(8.00%)
District's proportionate share of the net pension liability	\$	4,450,319	\$	3,615,620	\$	2,922,908

Detailed information about the TRS's fiduciary net position as of June 30, 2023 is available in the separately issued TRS Annual Comprehensive Financial Report.

b. Illinois Municipal Retirement Fund (IMRF)

Plan Description and Benefits

The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained online at www.imrf.org.

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Plan Membership

As of June 30, 2024, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	366
Inactive employees entitled to but not yet receiving benefits	483
Active employees	359
Total	1,208

Contributions

As set by statute, Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actual contribution rate for calendar year 2023 and 2024 was 8.11% and 8.40% of covered payroll. The District contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

Actuarial Assumptions

The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Entry Age Normal
Asset valuation method Fair Value of Assets

Inflation rate 2.25%

Salary increases 2.85% to 13.75%, including inflation

Investment rate of return 7.25%

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2023 valuation pursuant to an experience study

of the period 2020-2022.

Mortality For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median

income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021 were used. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021 were used. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future

mortality improvements projected using scale MP-2021.

Other information: Notes There were no benefit changes during the year.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Target	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
Equities	34.5 %	5.00 %
International equities	18.0 %	6.35 %
Fixed income	24.5 %	4.75 %
Real estate	10.5 %	6.30 %
Alternatives	11.5 %	6.05-8.65%
Cash	1.0 %	3.80 %
Total	<u>100.0</u> %	

Note 5: Employee Retirement Systems (Continued)

Discount Rate

The single discount rate used to measure the total pension liability for IMRF was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.77%, and the resulting single discount rate is 7.25%.

Balances at December 31, 2023	\$	56,945,480	\$ 50,982,589	\$	5,962,891

Notes to Basic Financial Statements

Note 5: Employee Retirement Systems (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liabilities of the District, calculated using the discount rate, as well as what the District's net pension liabilities would be if they were calculated using discount rates that are 1-percentage-point lower or 1-percentage-point higher than the current rate:

		Current		
	1% Decrease	Discount Rate	1% Increase	
	(6.25%) (7.25%) (8.25%)			
Net pension liability	\$ 12,030,365	\$ 5,962,891	\$ 960,930	

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2024, the District recognized pension expense of \$681,407. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Dutflows of Resources	Deferred Inflow of Resources
Difference between expected and actual experience Changes in assumptions Net difference between projected and actual earnings in pension plan	\$ 805,752 \$	- 51,327
investments Total deferred amounts to be recognized in pension expense in future periods	 2,660,416 3,466,168	51,327
District's contributions subsequent to the measurement date	573,629	
Total	\$ 4,039,797 \$	51,327

\$573,629 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Note 5: Employee Retirement Systems (Continued)

	Net Deferred Outflows (Inflows) of
Fiscal Year	<u>Resources</u>
2025 2026 2027 2028	\$ 919,734 1,058,525 1,797,547 (360,965)
Total	\$ 3,414,841

Aggregate Pension Amounts - At June 30, 2024, the District reported the following from all pension plans:

	TRS	IMRF	Total
Net pension liability (asset)	\$ 3,615,620	\$ 5,962,891	\$ 9,578,511
Deferred outflows of resources	1,729,785	4,039,797	5,769,582
Deferred inflows of resources	1,065,362	51,327	1,116,689
Pension expense (income)	26,291,496	681,407	26,972,903

Note 6: Other Postemployment Benefits

Teacher Health Insurance Security (THIS)

Plan Description. The Teacher Health Insurance Security Fund (THISF) (also known as the Teacher Retirement Insurance Program, "TRIP") is a non-appropriated trust fund held outside the State Treasury, with the State Treasurer as custodian. Additions deposited into the Trust are for the sole purpose of providing the health benefits to retirees, as established under the plan, and associated administrative costs. TRIP is a cost-sharing multiple-employer defined benefit post-employment healthcare plan with a special funding situation that covers retired employees of participating school districts throughout the State of Illinois, excluding the Chicago Public School System. TRIP health coverage includes provisions for medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits. Annuitants may participate in the State administered Preferred Provider Organization plan or choose from several managed care options. As a result of the Governor's Executive Order 12-01, the responsibilities to TRIP were transferred to the Department of Central Management Services (Department) as of July 1, 2013. The Department administers the plan with the cooperation of the Teachers' Retirement System (TRS).

The audit report is available on the office of the Auditor General website at www.auditor.illinois.gov, which includes the financial statements of the Department of Central Management Services. Questions regarding the financial statements can be addressed to the Department of Central Management Services at 401 South Spring, Springfield, Illinois 62706. A copy of the actuarial valuation report will be made available by the Commission on Government Forecasting and Accountability on its website at http://cgfa.ilga.gov/.

Note 6: Other Postemployment Benefits (Continued)

Plan Membership

In order to be eligible, retirees of public schools must have been certified educators or administrators during their time of employment. Eligibility to participate in the plan is currently limited to former full-time employees, or if not a full-time employee, an individual that is in a permanent and continuous basis position in which services are expected to be rendered for at least one school term, and their dependents.

Benefits Provided

The State Employees Group Insurance Act of 1971 (5 ILC 375/6.5) ("SEGIA") establishes the eligibility and benefit provisions of the plan.

Contributions

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 0.90% of salary and for every employer of a teacher to contribute an amount equal to 0.67% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

On-behalf contributions to THIS. The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.90% of pay during the year ended June 30, 2024. In the government-wide financial statements, the State of Illinois contributions also include a proportional allocation of the State's OPEB expense (based on the portion of the District's share of the expense compared to all School Districts in aggregate). For the year ended June 30, 2024, the District recognized revenue and expenses of \$(6,531,993) in the governmental activities based on the economic resources measurement focus and revenues and expenditures in the amount of \$411,448 in the General Fund based on the current financial resources measurement focus for the State of Illinois contributions on behalf of the District.

Employer contributions to THIS Fund. The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.67% during the year ended June 30, 2024. For the year ended June 30, 2024, the District paid \$306,300 to the THIS Fund, which was 100 percent of the required contribution. These contributions are deferred because they were paid after the June 30, 2023 measurement date.

Notes to Basic Financial Statements

Note 6: Other Postemployment Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2024, the District's reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$	11,364,668
State's proportionate share of the net OPEB liability associated with the District	_	15,368,652
Total	\$	26,733,320

The net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2022 and rolled forward to June 30, 2023. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2023, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2023, the District's proportion was 0.159451%, which was an increase of 0.002896% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the District recognized OPEB income of \$4,680,197.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		Deferred	Deferred
	C	Outflows of	Inflow of
		Resources	Resources
Difference between expected and actual experience	\$	-	\$ 6,346,270
Changes in assumptions		150,635	22,337,720
Net difference between projected and actual earnings in OPEB plan investments		4,523	-
Changes in proportion and differences between District contributions and			
proportionate share of contributions		1,155,688	861,994
Total deferred amounts to be recognized in OPEB expense in future periods		1,310,846	29,545,984
District's contributions subsequent to the measurement date		306,300	-
Total	\$	1,617,146	\$ 29,545,984

\$306,300 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Notes to Basic Financial Statements

Note 6: Other Postemployment Benefits (Continued)

<u>Fiscal Year</u>	Net Deferred Outflows (Inflows) of Resources
2024	A (5.450.40T)

2025	(4,612,342)
2026	(4,466,008)
2027	(4,409,545)
2028	(4,067,120)
Thereafter	(5,511,986)
Total	\$ (28,235,138)

Actuarial Valuation Method

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

Actuarial Assumptions.

The total OPEB liability was determined by an actuarial valuation as of June 30, 2022, using the following actuarial assumptions, applied to all periods included in the measurement date, unless otherwise specified:

Inflation	2.25%
Salary increases	Depends on service and ranges from 8.50% at 1 year of service to 3.50% at 20 or more years of service.
Investment rate of return	2.75%, net of OPEB plan investment expense, including inflation, for all plan years
Healthcare cost trend rates	Trend rates for plan year 2024 are based on actual premium increases. For no-medicare costs, trend rates start at 8.00% for plan year 2025 and decrease gradually to an ultimate rate of 4.25% in 2040. For MAPD costs, trend rates are 0% in 2024 to 2028, 19.42% in 2029 to 2033 and 6.08% in 2034, declining gradually to an ultimate rate of 4.25% in 2040.

Mortality rates for retirement and beneficiary annuitants were based on the PubT-2010 Retiree Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the PubNS-2010 Non-Safety Disabled Retiree table. Mortality rates for pre-retirement were based on the PubT-2010 Employee Mortality Table. All tables reflect future mortality improvements using Projection Scale MP-2020.

Notes to Basic Financial Statements

Note 6: Other Postemployment Benefits (Continued)

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2017 through June 30, 2020.

Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 3.86% as of June 30, 2023, and 3.69% as of June 30, 2022. The increase in the single discount rate from 3.69% to 3.86% caused the total OPEB liability to decrease by approximately \$137 million from 2022 to 2023.

Sensitivity of the Employer's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.86%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.86%) or 1-percentage-point higher (4.86%) than the current rate:

	Current			
	1% Decrease	Discount Rate	1% Increase	
	2.86%	3.86%	4.86%	
District's proportionate share of the net OPEB liability	\$ 12,689,968	\$ \$ 11,364,668	\$ 10,195,596	

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

District's proportionate share of the net OPEB liability

- a) Current healthcare trend rates Pre-Medicare per capita costs: 6.00% in 2024, 8.00% in 2025, decreasing by 0.25% per year to an ultimate rate of 4.25% in 2040. Post-Medicare per capita costs: 0.00% from 2024 to 2028, 19.42% from 2029 to 2033, 6.08% in 2034 decreasing ratably to an ultimate trend rate of 4.25% in 2040.
- b) One percentage point decrease in current healthcare trend rates Pre-Medicare per capita costs: 5.00% in 2024, 7.00% in 2025, decreasing by 0.25% per year to an ultimate rate of 3.25% in 2040. Post-Medicare per capita costs: 0.00% from 2024 to 2028, 18.42% from 2029 to 2033, 5.08% in 2034 decreasing ratably to an ultimate trend rate of 3.25% in 2040.
- c) One percentage point increase in current healthcare trend rates Pre-Medicare per capita costs: 9.00% in 2024, 9.00% in 2025, decreasing by 0.25% per year to an ultimate rate of 5.25% in 2040. Post-Medicare per capita costs: 0.00% from 2024 to 2028, 20.42% from 2029 to 2033, 7.08% in 2034 decreasing ratably to an ultimate trend rate of 5.25% in 2040.

Defined Post-Employment Healthcare Plan (PEHP)

The District administers a single-employer defined benefit healthcare plan, the "retiree Healthcare Program: or "the Plan". The plan provides healthcare insurance for eligible retirees and their dependents through the District's group health insurance plan, which covers both active and retired members. Benefit provisions are established by state law and through negotiations between the District and the unions representing District employees, which are renegotiated each bargaining period. The Plan does not issue a stand-alone financial report.

Funding Policy

All plan funding is done on a pay-as-you go basis. Eligibility – Non-certified retiree and their dependents are able to stay on the District's medical insurance plan until age 65 by paying 100% of the required premium. These required premiums are intended to represent the average total cost of the plan for all participants. An HMO and a PPO plan are available for retirees. After age 65, retirees and their dependents pay the full amount of Medicare supplemental premium. We have assumed that the Medicare supplement premiums are self-supporting and that there is no implicit subsidy for Medicare eligible retirees.

Notes to Basic Financial Statements

Note 6: Other Postemployment Benefits (Continued)

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2024. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Total OPEB liability	\$ 570,212
Plan fiduciary net position	-
Net OPEB liability	\$ 570,212

Actuarial Assumptions

The following are the methods and assumptions used to determine the total OPEB liability at June 30, 2024:

Discount rate 4.13% Long-term Expected Rate of N/A

Return on Plan Assets

S&P Municipal Bond 20 Year 4.13%

High Grade Index

Investment rate of return N/A

Retirement age Based on the Teachers' Retirement System of the State of Illinois (TRS)

experience study conducted in 2021 using experience from 2017-20, and also the Illinois Municipal Retirement Fund (IMRF) experience study conducted in

2020 using experience from 2017-2019.

Mortality Society of Actuaries (SOA) PUB-2010 mortality tables with generational

improvement based on Scale MP-2020 for TRS participants and Scale MP-2019

for IMRF participants.

Healthcare cost trend rates 7.00% decreasing to 6.50%, then decreasing by 0.10% per year down to 4.50%,

and level thereafter.

Discount Rate

The District does not have a dedicated Trust to pay the benefits of the Plan. Per GASB 75, this discount rate is a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The discount rate used is 4.13%, which is the S&P Municipal Bond 20 Year High Grade Index.

OPEB expense	4,680,197	21,480	4,701,677

Note 7: Fund Balance

According to Government Accounting Standards, fund balances are to be classified into five major classifications; Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance. Below are definitions of the how these balances are reported.

A. Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

B. Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories —

Special Education

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Account. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

2. Tort Immunity Account

Expenditures and the related revenues are accounted for in the Tort Immunity Account. Revenues exceeded expenditures for this purpose, resulting in a restricted fund balance of \$31,353.

State and Federal Grants

Proceeds from state and federal grants and the related expenditures have been included in the General Fund and various Special Revenue Funds. At June 30, 2023, expenditures exceeded revenue from state and federal grants, resulting in no restricted balances.

Notes to Basic Financial Statements

Note 7: Fund Balance (Continued)

4. Capital Projects Funds

Expenditures and the related revenues are accounted for in the Capital Projects and Fire Prevention and Safety Funds. All equity within these funds are restricted for the associated capital expenditures within these funds.

C. Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

D. Assigned Fund Balance

The assigned fund balance classification refers to the amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

E. Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds. A negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes.

F. Expenditures of Fund Balance

Unless specifically identified, expenditures disbursed act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

Note 8: Common Bank Account

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain their uninvested cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund.

Notes to Basic Financial Statements

Note 9: Permanent Transfers

\$354,765 was transferred from the General Fund's Educational Account to the Debt Service Fund. These transfers were made to fund principal and interest payments on outstanding debt. \$6,200,000 was transferred from the General Fund's Operations and Maintenance Account was transferred to the Capital Projects Fund. \$4,725,350 was transferred from the General Fund's Educational Account to the General Fund's Operations and Maintenance Account. \$1,174,650 was transferred from the Transportation Fund to the General Fund's Operations and Maintenance Account.

Note 10: Risk Management

The District has purchased insurance through a risk pool (see Note 11) and from private insurance companies. Risks covered include general liability, workers compensation and other. Premiums have been displayed as expenditures in appropriate funds. No significant reductions in insurance coverage have occurred from the prior year, and no settlements have been made in the last three years which exceeded any insurance coverage.

Note 11: Collective Liability Insurance Cooperative (CLIC)

The District is a member of CLIC, which has been formed to provide casualty, workman's compensation, property and liability protections and to administer some or all insurance coverages and protection other than health, life and accident coverages procured by the member districts. It is intended, by the creation of CLIC to allow a member District to equalize annual fluctuations in insurance costs by establishing a program whereby reserves may be created and temporary deficits of individual Districts covered and to ultimately equalize the risks and stabilize the costs of providing casualty, property and liability protections. If, during any fiscal year, the funds on hand in the account of CLIC are not sufficient to pay expenses of administration, the Board of Directors shall require supplementary payment from all members. Such payment shall be made in the same proportion as prior payments during that year to CLIC. Complete financial statements for CLIC can be obtained from its administrator, 1441 Lake Street, Libertyville, IL 60048.

Note 12: Joint Agreements

The District is a member of Mid-Valley Special Education Joint Agreement and Fox Valley Career Center, joint agreements that provide certain special education and vocational services to residents of many school districts. The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing board, this is not included as a component unit of the District.

Notes to Schedule

Valuation date:

Actuarially determined contribution rates are calculated as of December 31 of each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rate

Actuarial cost method
Amortization method
Remaining amortization period
Asset valuation method
Wage growth
Inflation
Salary increases
Investment rate of return
Retirement age

Mortality

Aggregate entry age normal Level percent of pay, closed 20-year closed period

5-year smoothed market; 20% corridor

2.75% 2.25%

2.75% to 13.75%, including inflation

7.25%

Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2020 valuation pursuant to an experience study of the period 2017 - 2019.

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Changes of assumptions

For the 2023 measurement year, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.50 percent and a real return of 4.50 percent. Salary increases were assumed to vary by service credit. These actuarial assumptions were based on an experience study dated Sept. 30, 2021.

For the 2022-2018 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.25 percent and a real return of 4.75 percent. Salary increases were assumed to vary by service credit. The assumptions used for the 2020-2018 and 2017-2016 measurement years were based on an experience study dated September 18, 2018 and August 13, 2015, respectively.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

^{*} The amounts presented were determined as of the prior fiscal-year end.

Notes to Required Supplementary Information

Budgetary Data

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- ➤ The Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments
- Prior to September 30 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- The Board of Education may transfer up to 10% of the total budget between departments within any fund. The budget, which was not amended, was adopted on September 25, 2023.
- Formal budgetary integration is employed as a management control device during the year for all Governmental Funds.
- > The District has adopted a legal budget for all its Governmental Funds. The legal level of budgetary control is at the individual fund level, therefore, actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
- > The budget lapses at the end of each fiscal year.

Nonmajor Governmental Funds

Special Revenue Funds

To account for proceeds from specific revenue sources which are designated to finance expenditures for specific purposes, the District maintains the following Special Revenue Funds:

Transportation Fund - To account for activity relating to student transportation to and from school.

Municipal Retirement/Social Security Fund - To account for the District's portion of pension contributions to the Illinois Municipal Retirement Fund and Social Security for noncertified employees.

Capital Projects Funds

Capital Projects Fund - The Capital Projects Fund accounts for the cost of planned current and future major projects for the acquisition and construction of buildings, infrastructure, and related improvements.

Fire Prevention and Safety Fund - The Fire Prevention and Safety Fund accounts for financial resources to be used for acquisitions and construction projects, which qualify as Fire Prevention and Safety expenditures

Combining Balance Sheets - Non-major Governmental Funds

STATISTICAL SECTION (UNAUDITED)

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
