Re: Zonar

President Widdison, Superintendent Butters, and Board Members,

I am requesting Board approval to pay the annual invoice for our GPS fleet management services provided by Zonar for \$117,454.40.

Zonar's GPS is an essential component of our daily transportation operations. The system provides real-time bus tracking, vehicle location services, maintenance support, and operational data that enhance student safety and fleet efficiency.

These services are utilized daily to support the safe and efficient transportation of students throughout the district.

The annual cost for the service period is \$117,454.40. This expense is budgeted as an annual operational cost and is necessary to maintain uninterrupted GPS service for the district's transportation fleet, along with maintenance vehicles and warehouse vehicles.

I respectfully request the board's approval to authorize payment of \$117,454.40 to Zonar for the annual GPS service agreement.

If I can provide further clarification or answer questions, please call me at 801-476-7931 or my cell phone at 801-725-4610. Thank you for your consideration and continued support of the transportation department as well as all departments in our district,

Sincerely,

Kristen H. Kearl
Transportation Supervisor
Weber School District
