

❖ **Concerts:**

- This December brings several band and choir concerts, as well as various other artistic presentations. These are great opportunities to see and hear our students perform on the stage.

❖ **Indoor Air Quality (IAQ) Project**

- The IAQ project planning continues. After the School Board Work session on November 24th, the Business Management team and I discussed the options for funding the installation of the air handlers and EUV. Our recommendation is to use a combination of current funds (Construction Funds, LTFM Reserves, Debt Service Funds, and MELA funds. We would bond for a portion of the funds next summer. This will have no property tax impact, which is shown in the documents included in the board packet.

❖ **Truth in Taxation Report:**

- Todd Netzke from School Management Services (SMS) will present our Truth in Taxation report. Todd will be discussing the details of our payable 2026 levy, which is reduced from last year's levy by 4.12%.

❖ **2024-2025 Audit:**

- Janel Bitzen from BerganKDV Auditors will present our 2024-2025 school year audit at the board meeting virtually. Janel has worked with our finance team, including Bridget Larson, Todd Netzke, Chelsey Novak, Ashley Legatt, and Dion Caron. Thank you to those team members who have been working to get this completed by the end of the calendar year.

❖ **DACCS Mtg.:**

- The District Advisory Committee for Curriculum and Standards (DACCS) is scheduled to meet prior to the school board meeting. Agenda items include School goals for each school, as they refer to the Curriculum Achievement and Civic Readiness (CACR) report, Standard Response Protocol, the curriculum cycle, and potential course changes for the High School.
