

DU PAGE ELEMENTARY SCHOOL DISTRICT 13
BOARD OF EDUCATION
Bloomington, Illinois
Regular Meeting May 19, 2025

FOR ACTION

Subject: Approval of Amended FY 2025 Budget

The Illinois State Board of Education (ISBE) requires school districts to amend their budgets when changes occur during the fiscal year that affect the originally adopted budget. After a school district adopts its annual budget, any revisions must follow a formal budget amendment process. This process includes presenting a tentative amended budget at a public board meeting, making the budget available for public inspection for at least 30 days, holding a public hearing, and adopting the final amended budget at a subsequent public meeting.

This current budget amendment for FY 2025 is necessitated by the referendum passed in November 2024. The referendum authorized changes that impact the district's financial plan, requiring adjustments to the originally adopted budget to reflect the new funding and expenditure allocations approved by the voters. The amendment ensures compliance with ISBE rules and state law while aligning the district's budget with the community's approved referendum outcomes

Recommendation: The Board approve the budget amendments as presented, and authorize Board members to sign the necessary documents.
