

Who We Are

Stone Springs Dx, LLC is a highly-specialized diagnostic laboratory based in Houston, Texas. Our lab offers a wide range of clinical studies including: hematology, pharmacogenomics, molecular studies, histopathology, and toxicology.

We partner with laboratories, hospitals, physician clinics, other healthcare providers, and private corporations to help tackle their most pressing healthcare challenges.

COVID-19 Testing Program for Businesses Overview

Our lab offers RT-PCR Covid-19 self-administered testing and onsite collection. How does the program work?

- 1) Lab prepares RT-PCR Kits – nasopharyngeal swab or non-invasive through saliva evaluation
- 2) Kits are securely packed and shipped to client location
- 3) Upon delivery, kits are administered to business partners for self-testing
- 4) Kits are collected and shipped back to the lab
- 5) Once received by lab, results are provided within 24 hours

**Results Provided within 24
hours of kit delivery to lab**
