

Dear Selection Committee,

I want to introduce you to our amazing ESL lead team members at Weber Adult Education. Ghislaine Richards, Amy Thomas, Angie Woodring, Rosa Hernandez, and Ana Zambrano. These individuals embody and model true servant leadership in everything they do. Usually five times five is twenty-five, but not in Weber Adult Education. Recently, I witnessed a math miracle when these five servant leaders affected 135 students in five days.

Our program had a 185% growth rate in one week. This team of amazing professionals worked together to onboard our ESL students that needed registration, testing, class placement and compassion. They worked tirelessly and many hours after they should have gone home, but they didn't because their commitment to their profession and love for their students. This is a clear example of sleeves up, hearts open and all in! We have over 45 different languages come to our registration and together this team spoke three! With the help of Propio, (provided by our Educational Equity Department) our language interpreting vendor, we were able to communicate and assist students who truly felt that Weber School District *sees them, hears them and defiantly has them in our open arms!*

These students have now been in classes where they are learning English as a second language and their children are in our school learning with them. How fortunate is Weber School District to provide services for the entire family!

This team is all heart and is more than worthy to receive the E+ Team award!

Best regards,

Andrea Woodring  
Principal  
Weber Adult Education
