

Executive Summary

Prepared for Board of Trustees Meeting

December 12, 2006

Review of Legislative Priorities

Purpose of Report

The Board will review and discuss a draft copy of proposed legislative priorities. This topic is in preparation of the pending 80th Legislature.

Objectives

- To review the proposed priorities as submitted
- To edit current topics as needed
- To add additional topics as needed
- To provide staff further direction in finalizing the document
- To discuss “next steps” in terms of adding detail background information

Operational Impact

The legislative priorities will serve as the district’s primary talking points during the 80th Legislative Session. The priorities cover a range of topics from school funding to textbook availability to transportation services. Outside of the general funding topic, the remaining items are of local interest since these issues have specific DISD impact

Results

The Board will discuss the proposed items and give staff further direction in completion of this project. The next phase of this project might be the development of detail associated with each topic. This detail would serve as background information and provide local impact to the topics.
