ACTION

BACKGROUND INFORMATION

This spring, the USDA circulated notice to school districts clarifying Equity in School Lunch Pricing expectations for School Nutrition Programs. Many Schools participating in the National School Lunch Program have failed to structure and adjust meal pricing that covers the cost of production. Our food service consultant, Walker Quality Services, has reviewed our pricing schedule and has made recommendations for adjusting meal pricing for 2011-2012 to better comply with USDA guidelines and avoid additional scrutiny on our Nutrition program.

ADMINISTRATIVE RECOMMENDATION

We recommend adjusting Cafeteria prices for 2011 as suggested by Walker Quality Services. These suggested prices meet the USDA Requirements for Equity in School Lunch Pricing as modestly as possible.
