Fierce Conversations FCAM

Corporate and board jargon and yes-individuals get you nowhere. That's why Justin Caldwell, Ed.D., is tearing up the old playbook on board interactions. He's mastered the art of fierce conversations — authentic discussions that tackle issues head-on. Drawing from the bestseller *Fierce Conversations* by Susan Scott, Dr. Caldwell helps organizations ditch the fluff and start addressing the uncomfortable truths stifling progress. His background shapes a fresh perspective on cultivating transparent dialog that sparks change. Don't keep kicking those tough conversations down the road. It's time to have those real talks you've been avoiding, one honest word at a time. The rewards? Improved work performance, stronger relationships, and greater overall fulfillment. It starts with getting fierce.

Presenter: **Justin Caldwell Ed.D.**, Adjunct Professor, Governors State University; Co-Owner, Sweet Darren's Bakery; Sales Operations Manager, Cardinal Health; and School Board President, Bradley-Bourbonnais CHSD 307

In this tailored workshop, David Horsager, the world's leading authority on trust, returns to the Joint Annual Conference to share his 8-Pillar Framework.™ Horsager delivers actionable strategies to build trust across all levels, from administrators to parents to students — and to the world they will one day change! Discover insights needed to grow a high-trust culture from the inside out and to strengthen academic excellence, relationships and the future of education.

Leading Schools in a Highly Polarized World HPWAM/HPWPM

America is polarized, with deep splits in beliefs, parties, and genders. This session will focus on strategies to center school improvement on the academic needs of current students and avoid political distractions that delay or divert resources and services. Discover tools, strategies, protocols, and templates to:

- Empower a diverse guiding coalition from across the ideological spectrum.
- Focus improvement initiatives on actions that address the current needs of the district's children while maintaining a blame-free environment about the past.
- Generate interest convergence centering on actions to take to meet the community's desire that all students become academically proficient as the central mission of schools, even though individuals may disagree about other issues.
- Avoid trigger words and labeling that may be perceived as inflammatory or indoctrination.

Learn how to depoliticize school improvement and empower stakeholders to work together regardless of political and social differences.
