

**FOREST LAKE AREA SCHOOLS  
FOREST LAKE, MN 55025**

**November 14, 2019**

**AGENDA ITEM: 10.4**

**TOPIC: New Course Proposal – CIS Human Physiology, Technology and Medical Devices**

**BACKGROUND:**

In an effort to expand the opportunities for students to earn college credit through coursework at Forest Lake Area High School, teachers and administrators explored potential departments and course offerings for consideration.

**PROCESS:**

Based in large part on student request, the science department determined that *CIS Human Physiology, Technology and Medical Devices* would be a good college credit-bearing alternative to the current *Human Anatomy* course, and would provide students with a new elective course offering to fulfill the 0.5 elective course requirement in science. The course outline and content overview accompanies this course proposal.

**RECOMMENDATION:** First Reading of Proposed New Course

*\*To be offered in 20-21 pending Board Approval*
