

Action Item H.2.b

Student Nutrition

Background: MISD has been investigating options that will enhance our student nutrition program. Chartwells is one of several companies that specialize in running school food service programs. They will be doing an evaluation of our cafeteria program and will offer advice as to ways we can improve our existing program. They will also make a presentation to the board concerning running the program for us. There are several options that are available to us. This service is controlled by the Department of Agriculture and will have to be bid in the spring of 2015.

Recommendation: To hire Chartwells as a consultant to finish out the 14/15 school year. We will send out formal bids in the spring for the 15/16 school year.

Sample Motion: I move that we hire Chartwells as a student nutrition consultant for the remainder of the 14/15 school year.
