Student Organizations

(Version 1)

See current version

The Board encourages students to broaden their knowledge of citizenship by permitting the formation of clubs or other groups organized to promote or pursue specialized activities outside the classroom provided these conditions are met:

1. Membership is open to all students;
2. Each student organization has an organizational charter which has been approved by the superintendent or designee. This approved charter will be reviewed by the Board for final approval or rejection;
3. After an organization has received its approved charter, the superintendent or designee will be responsible to see that a member of the faculty is appointed as an official advisor. The advisor will attend all meetings and see that the organization operates within its charter;
4. The Board reserves the right to review charters as deemed necessary and has the right and responsibility to revoke charters of organizations which violate their charters.

This policy applies to on-campus organizations. It is not intended to restrict the organization of students into groups which function apart from the school premises.

Voluntary student-organized clubs which are not curriculum related may meet on school premises during noninstructional time pursuant to the provisions of the Equal Access Act and to the terms of this policy.

END OF POLICY
