Maintenance and Transportation Report

August 17, 2026 Board Meeting

Maintenance

The maintenance crew has been busy completing summer projects and preparing district facilities for the upcoming school year.

At Driftwood, the crew has been completing sheetrock work and painting in several areas, including the playshed and P.E. office. Summer cleaning continues throughout the district, including floor stripping and waxing.

Grounds maintenance is ongoing with mowing and trimming.

At Pacific High School, the gate has been adjusted to swing inward. This change will allow buses to pull farther into the property when arriving after hours to open the gate. The adjustment will improve both safety and access for transportation staff.

The boys' locker room is currently being remodeled. Work includes installation of new walls, fresh staining, and plumbing improvements.

Throughout the school, hallway, and classroom floors have been reconditioned. Walls have also been patched and painted as part of the summer maintenance work.

Grounds crews continue to mow, trim, and prepare athletic areas, with particular attention being given to fields in preparation for the upcoming soccer season.

Transportation

The annual vehicle inspections and scheduled maintenance work have been completed.
