

Document Status: Draft Update

OPERATIONAL SERVICES

4:150 Facility Management and Building Programs

The Superintendent, or designee, shall manage the District's facilities and grounds as well as facility construction and building programs in accordance with the law, the standards set forth in this policy, and other applicable Board of Education policies. The Superintendent or designee shall facilitate: (1) inspections of schools by the Regional Superintendent and State Fire Marshal or designee, (2) review of plans and specifications for future construction or alterations of a school if requested by the relevant municipality, county (if applicable), or fire protection district, and (3) compliance with the 10-year safety survey process required by the School Code.

Standards for Managing Buildings and Grounds

All District buildings and grounds shall be adequately maintained in order to provide an appropriate, safe, and energy efficient physical environment for learning and teaching. The Superintendent or designee shall provide the Board with periodic reports on maintenance data and projected maintenance needs that include cost analysis. This policy is not intended to discourage efforts to improve the appearance of buildings or grounds that are consistent with the designated use of those buildings and grounds.

Standards for Green Cleaning

For each District school with 50 or more students, the Superintendent or designee shall establish and supervise a green cleaning program that complies with the guidelines established by the Illinois Green Government Coordinating Council.

Standards for Facility Construction and Building Programs

As appropriate, the Board will authorize a comprehensive study to determine the need for facility construction and expansion. On an annual basis, the Superintendent or designee shall provide the Board with projected facility needs, enrollment trends, and other data impacting facility use. Board approval is needed for all new facility construction and expansion.

When making decisions pertaining to design and construction of school facilities, the Board will confer with members of the staff, parents, students and community, the Ill.

State Board of Education, and educational and architectural consultants, as it deems appropriate. The Board's facility goals are to:

1. Integrate facilities planning with other aspects of planning and goal-setting.
2. Base educational specifications for school buildings on identifiable student needs.
3. Design buildings for sufficient flexibility to permit new or modified programs.
4. Design buildings for maximum potential for community use.
5. Meet or exceed all safety requirements.
6. Meet requirements on the accessibility of school facilities to disabled persons as specified in State and federal law.
7. Provide for low maintenance costs, energy efficiency, and minimal environmental impact.

Site Acquisition

Discussion of possible school sites may be carried on in a closed session of the Board, but all official actions must be taken in an open, public meeting. Official Board action is required to execute a valid contract, and a record of that action must be a part of the minutes of the Board. The process used in acquiring real property must be in accordance with law. Any deviation from the strict requirements of the law may render the transaction void.

Commemoration of School Facilities

From time-to-time, the Board of Education may wish to commemorate a school or District facility by means of a plaque or naming the facility after a person. Such commemoration should be reserved only for those individuals who have made a significant contribution to the enhancement of education generally or the District in particular or to the well-being of the District, community, State or nation.

Any employees of the District thus honored must be deceased or no longer employed by the District for at least twelve (12) months prior to the Board's selection of his/her name for a plaque or for the naming of a facility or any area inside or outside of a facility on school property.

In the event of the death of a student, recognition and/or a memorial commemorating the life of the student is acceptable. In these circumstances, the Board strongly encourages forms of living recognition. Such memorials may include scholarships, plantings, donations, and/or other similar ways of honoring the life of the student that are consistent with the mission of the District.

PRESSPlus Comments

[PRESSPlus 1](#). The Legal References are updated. 410 ILCS 35/25, added by P.A. 101-165, eff. 1-1-20, requires schools to identify all single-occupancy restrooms as all-gender. It is unclear if this law will apply only to those restrooms made available to members of the public in schools, or if it will also include facilities designated as employee-only. The Ill. Dept. of Public Health enforces this requirement and may issue regulations to address this issue. **Issue 102, October 2019**
