Eagle Pass Independent School District

TO: Gilberto Gonzalez, Superintendent

FROM: Ismael Mijares, Deputy Superintendent for Business & Finance

SUBJECT: BUDGET AMENDMENTS FOR SPECIAL PROJECTS

DATE: May 30, 2017

* Not Included 169-Fund and 175-Fund

This Budget Amendment is to appropriate funds in the *Capital Projects Budget* for the following:

EPHS/CC Winn Field Houses EPHS Locker Rooms Renovation CC Winn Locker Rooms Renovation Austin Elementary Parking Lot Austin Elementary Renovation Fine Arts Letters – Raul Gonzalez * Not Included in 5-Year Plan	Total:		,235,549 213,861 155,267 373,515 350,000 25,000* , 353,192
The above Special Projects will be funded from	n the following	Tran	sfers-In:
175-Mama Patrol Fund-Check Payment Recieved 199-M&O Fund-Flood Final Payment 199-M&O Fund-Electricity Savings 199-M&O Fund-Copier Lease Credit (May-July 617-Flooding Incident Fund-Claim unspent 753-Workers Compensation Self-Funded 775-Health Insurance Self-Funded	y 2015)	\$	56,058 58,489 97,718 136,966 72,652 621,457* ,130,024*
776-Unemployment Compensation Self-Funde	ed		179,828*

The 753-Workers Compensation Estimated Revenues will be reduced by \$666,599 (General Fund \$627,945/Special Revenue Funds \$38,654), which will reduce estimated fund balance from \$1,045,200 to \$378,601. The 775-Health Insurance Estimated Revenues will be reduced by \$1,256,344 (General Fund \$1,133,835/Special Revenue Funds \$122,509), which will reduce estimated fund balance from \$4,734,471 to \$3,478,127. The 776-Unemployment Compensation Estimated Revenues will be reduced by \$197,214 (General Fund \$180,543/ Special Revenue Fund \$16,671), which will reduce estimated fund balance from \$1,109,501 to \$912,287.

\$2,353,192

Total:

Attached are the Budget Amendments to appropriate these Funds.

School Audits,

Good Afternoon. The school district has the following question:

1) If the district has a reserve in an internal service fund (e.g. self-funded workers' compensation, health insurance and unemployment), may the district NOT charge any fund (general and special revenue) the workers' compensation, health insurance, and unemployment benefits in a given year? The workers compensation, health insurance, and unemployment internal service funds may or may not have revenue realized from the general and special revenue funds as reflected on the budget as approved by the school board.

Please advise. Thank you for your assistance with this matter.

Susana Perez

Good morning. The answer to that question was in the e-mail below from 6/1/17 in RED.

Our answer to that question is yes.

Thanks!

<Yolanda.Walker@tea.texas.gov>; Martin, Tiffany <Tiffany.Martin@tea.texas.gov> Cc: Ismael Mijares <imijares@eaglepassisd.net>; Susana Perez <sperez@eaglepassisd.net> Subject: Internal Service Funds

School Audits,

1) If the district's internal service fund (775 self-funded health insurance) was **subsidized** with **additional M&O funds** (general fund) to cover a deficit fund balance in a prior year, may funds from the internal service fund reserve (775 self-funded health insurance) be transferred to the M&O fund (general fund)? The transfer with school board approval will **not** exceed the amount that was subsidized by the M&O fund to cover the deficit fund balance in a prior year.

ISF are proprietary funds established by governments to provide goods and/or services to or on-behalf of the government at cost/reimbursement basis. Self-insurance ISF are a special type of ISF as they require careful forethought, planning, consulting, rate setting and board action to establish.

A self-insurance fund can't close a year with a loss (deficit). The funding of the deficit would be an expense of the government unit for that year and not a subsidy as the financial statements issued at that time would reflect. This reflects that rates the district set were too low and the district is required to make up the deficit. The deficit funding should be taken into account in setting next years contribution rates.

Any future build up of net assets of the self-insurance fund belongs to all the sources and factors that led to the balance. This would include all funds received from the employer's contributions expense from local, state and federal sources, premiums paid by employees, and the actual expense of the claims (i.e. the health cost of employees). You cannot claim these net assets as being owed to the general fund based on its funding a prior year loss. If so the same consideration would have to be given to these other sources and amounts would also be owed back to the specific federal grants and local and state sources, in addition the employees who contributed at the rate the district approved may be owed a refund out of the build up.

2) If the district has a reserve in an internal service fund (e.g. self-funded workers' comp and unemployment), may the district not charge any fund (general and special revenue) the workers' compensation and unemployment benefits in a given year? The workers compensation and unemployment internal service funds would not have revenue realized from the general and special revenue funds as reflected on the budget as approved by the school board.

Yes

Your attention to this matter is appreciated.

Fund Balance

6 messages

Jose Esquivel <jesquivel@eaglepassisd.net> To: schoolaudits@tea.texas.gov Cc: Ismael Mijares <imijares@eaglepassisd.net>

School Audits,

We have the following questions: 1) Can the health insurance fund have a deficit fund balance if the M&O has a fund balance to

cover it?

2) If the health insurance fund can have a deficit fund balance, may we transfer funds from the M&O to the health insurance fund to reduce the deficit?

3) If on the other hand, the health insurance fund has a fund balance, may we transfer funds from the health insurance fund to the M&O fund?

Respectfully,

Jose Esquivel Business & Finance Director Eagle Pass ISD 1420 Eldson Road Eagle Pass, TX 78852 830-773-5181 ext. 1120 email: jesquivel@eaglepassisd.net

Moreno, Paul <Paul.Moreno@tea.texas.gov>

To: "jesquivel@eaglepassisd.net" <jesquivel@eaglepassisd.net>

Cc: "mijares@eaglepassisd.net" <mijares@eaglepassisd.net>, schoolaudits <schoolaudits@tea.texas.gov>

Mr. Esquivel,

See the following responses to your questions.

1) Can the health insurance fund have a deficit fund balance if the M&O has a fund balance to cover it? Unless project accounting is required, funds other than the general fund should report a negative overall fund balance as unassigned.

2) If the health insurance fund can have a deficit fund balance, may we transfer funds from the M&O to the health insurance fund to reduce the deficit? Yes.

3) If on the other hand, the health insurance fund has a fund balance, may we transfer funds from the health insurance fund to the M&O fund? Remaining resources may be transferred to the general fund if it is not a special revenue fund (revenue sources are restricted or committed). The balance may also be left in the health insurance fund to cover any future potential deficits.

conservation of the second second

Thanks,

Paul Moreno

Contributions to a reserve for certain self-insurance programs including workers compensation, unemployment compensation, and severance pay are allowable subject to the following provisions:

- The type of coverage and the extent of coverage and the rates and premiums would have been allowed had insurance (including reinsurance) been purchased to cover the risks. However, provision for known or reasonably estimated self-insured liabilities, which do not become payable for more than one year after the provision is made, shall not exceed the discounted present value of the liability. The rate used for discounting the liability must be determined by giving consideration to such factors as the governmental unit's settlement rate for those liabilities and its investment rate of return.
- Earnings or investment income on reserves must be credited to those reserves.
- Contributions to reserves must be based on sound actuarial principles using historical experience and reasonable assumptions. Reserve levels must be analyzed and updated at least biennially for each major risk being insured and take into account any reinsurance, coinsurance, etc. Reserve levels related to employeerelated coverages will normally be limited to the value of claims (a) submitted and adjudicated but not paid, (b) submitted but not adjudicated, and (c) incurred but not submitted. Reserve levels in excess of the amounts based on the above must be identified and justified in the cost allocation plan or indirect cost rate proposal.
- Accounting records, actuarial studies, and cost allocations (or billings) must recognize any significant differences due to types of insured risk and losses generated by the various insured activities or agencies of the governmental unit. If individual departments or agencies of the governmental unit experience significantly different levels of claims for a particular risk, those differences are to be recognized by the use of separate allocations or other techniques resulting in an equitable allocation.
- Whenever funds are transferred from a self-insurance reserve to other accounts (e.g., general fund), refunds shall be made to the Federal Government for its share of funds transferred, including earned or imputed interest from the date of transfer.

Actual claims paid to or on behalf of employees or former employees for workers' compensation, unemployment compensation, severance pay, and similar employee benefits (e.g., subsection for post retirement health benefits), are allowable in the year of payment provided (1) the governmental unit follows a consistent costing policy and (2) they are allocated as a general administrative expense to all activities of the governmental unit.

reported in the GLTDF. The determination whether a claim or a loss should be recorded should be based on the criteria discussed above.

- Internal Service Fund If the school district uses an Internal Service Fund to account for its risk financing, it may create a separate self <u>insurance</u> Internal Service Fund to pay claims and judgments of all funds. Because the full faith and credit remains with the school district, risk is not transferred to the separate insurer fund. The Internal Service Fund may use any basis it considers appropriate to charge other funds of the school district, as long as these conditions are met:
 - The total charge by the Internal Service Fund to the other funds for the period is calculated using the criterion above that an asset has been impaired or a liability has been incurred and that the amount can be reasonably estimated.
 - The total charge by the Internal Service Fund to the other funds is based on an actuarial method or historical cost information and adjusted over a reasonable period of time so that Internal Service Fund revenues and expenses are approximately equal.
 - In addition to the above, the total charge by the Internal Service Fund to other funds may also include a reasonable provision for expected future catastrophic losses.

Charges made in accordance with the foregoing provisions should be recognized as revenue by the Internal Service Fund and as expenditures/expenses by the other funds of the school district. Deficits, if any, in the Internal Service Fund resulting from these charges need not be charged back to the other funds in any one year, as long as adjustments are made over a reasonable period of time. However, a deficit fund balance of the Internal Service Fund should be disclosed in the notes to financial statements. Net assets should be reported as equity designated for future catastrophic losses for any charges made to provide for future losses.

1.2.7.3 Participation in Public Entity Risk Pools

A public entity risk pool is defined by GASB Statement No. 10 as a cooperative of governmental entities joining together to finance an exposure, liability or risk. Risk may include property and liability, workers' compensation or employee health care. A pool could be a stand-alone entity or could be included as part of a larger governmental entity that acts as pool's sponsor.

Some pool risk arrangements entail a transfer of risk and others do not. GASB Statement No. 10 defines four types of public entity risk pools:

January 2010

134 Financial Accounting and Reporting

If a disclosure is required, the *nature* and the *estimated amount* or range of the loss should be disclosed. If the school district is not able to estimate the amount or range of the loss, the footnote disclosure should state this fact.

In most instances, school districts will have some form of comprehensive or catastrophic coverage associated with health, dental, fire, general liability or <u>worker's compensation</u> <u>insurance</u>. In such instances, these accounting and reporting requirements apply to the uninsured portion of the liability.

Incurred But Not Reported

In addition to situations discussed above, a school district should evaluate situations where incurred but not reported (IBNR) losses occur. Common types of IBNR losses are worker's compensation and medical claims. IBNR is related to an event that could lead to the occurrence of a loss before the date of the financial statements, but no claim has been asserted at the date of the financial statements.

If the school district concludes that an IBNR will be asserted by another party, the loss should be accrued if a reasonable estimate of the loss can be made. The amount of the accrual should be based on past experience of settling claims and total cost for settling a claim including provisions for inflation. This accrual can be based on a case-by-case review or on overall historical experience. In some instances if the computation is complicated, an actuary may be needed to determine the calculation.

1.2.7.2 Accounting of Self-Insurance and Loss Contingencies in Different Types of Funds

Risk management may be accounted for in one of two funds: General Fund or Internal Service Fund. The considerations for accounting in each of them are:

• *General Fund* - If the school district accounts for its risk management in governmental funds (i.e., General Fund), expenditures are recognized on the modified accrual basis. Accordingly the amount of claims recorded as expenditures in governmental funds will be the amount accrued during the year that would normally be liquidated with expendable available financial resources. Therefore, if a school district expects to pay the liability or a portion of the liability within 60 days from financial statement date, the liability will be recorded in the General Fund. The remainder of the liability should be
