

LIBERTYVILLE ELEMENTARY SCHOOLS
District No. 70
Libertyville, Illinois

February 23, 2026

BOARD REPORT 9.2

APPROVAL OF K-8 MATH CURRICULUM

Members of the K-5 math committee and Highland Math Department will present a proposal for a K–8 mathematics curriculum adoption.

We are recommending the adoption of Bridges for grades K–5. This is a re-adoption for grades K–4 and a new adoption for grade 5. Extending Bridges to fifth grade will ensure a cohesive and comprehensive elementary mathematics experience for our students.

At Highland Middle School, we will propose the adoption of a 3-year contract with Amplify Desmos. This includes a blended package of paper and online resources for staff and students and professional development for the team. Pending Board approval we intend to begin professional development to ensure our teachers are well prepared for implementation in the fall.

POSSIBLE MOTION:

I move that the Board of Education approve the three-year proposal to adopt Amplify Desmos for grades 6–8 and Bridges 3.0 for grades K–5 as the district’s math curriculum, as presented at the February 23, 2026 Board of Education meeting.
