A. EDUCATIONAL IMPACT STATEMENT

The acquisition of a food concession trailer will have a significant and positive educational impact on our district's students, particularly those in the Culinary Arts (CTE) and Special Education programs. By providing a hands-on, real-world environment for skill application, the trailer will:

Enhance Career-Readiness: Students will gain valuable experience in food preparation, customer service, inventory management, and operational logistics—skills that align directly with industry standards in the hospitality and foodservice sectors.

Foster Interdisciplinary Collaboration: Both CTE and Special Education students will work together in planning, preparing, and selling products, promoting teamwork, problem-solving, and communication across disciplines.

Promote Inclusion and Empowerment: Special Education students will have an opportunity to apply their skills in a meaningful, community-facing role, increasing confidence, independence, and employability.

Support Community Engagement: By participating in school and community events, students will showcase their talents and foster positive connections between the school district and the broader community.

Align with District Goals: The trailer supports our district's commitment to experiential learning, inclusivity, and career readiness, ensuring all students graduate prepared for postsecondary success.

To move forward with this initiative, we are seeking permission to go out to bid for the food concession trailer. Securing competitive bids will allow us to ensure responsible fiscal management while obtaining a high-quality trailer that meets the needs of both programs.

B. SCHOOL IMPROVEMENT GOAL STATEMENT

ADMINISTRATION'S RECOMMENDATION

I recommend seeking permission to go out to bid for the purchase of a food concession trailer to support the educational objectives of the Culinary Arts and Special Education programs.
