

Q&A from Trustee Prado  
June 17, 2020 Board Meeting

Good Evening Dr. Puig,  
I am submitting the following questions pertaining to some agenda items for our Board Meeting, June 17, 2020:

Discussion and Possible Action Item #4 Discussion and Possible action to approve Pre-K4 SA

What is the estimated per capita funding from all funding sources for an enrolled Pre-K student in our school district?

**The District currently receives \$3,300 per pre-K student in state funding through Tier I and Tier II. The Legislature sought to fund full-day pre-K through HB3, but rather than changing the pre-K funding formula itself, they created the early education allotment to bridge this gap.**

For the school year 2020-2021, is the school district assured of the \$250,000 competitive grant? From the inception of Pre-K4 SA, eight years ago, did any of the partner school districts BEFORE they approved their Pre-K4 SA agreements/MOU, receive any unobligated grant money or indirect compensation? If so, which district partners.

**A one-time \$250,000 grant award is available for any new partner school district that signs a partnership agreement outside of the RFP period for the upcoming school year. A grant application is required before the grant can be awarded. The grant application is separate from the MOU/partnership agreement.**

**No partner school districts have received a Competitive Grant award without a signed MOU/partnership agreement.**

According to the data in the backup information, there were 27 Pre-K4 SA students enrolled in the Fall 2018, who resided in the SSAISD. How many of these students enrolled in Kindergarten in the Fall 2019 in one of our South San schools?

**The students enrolled in 2018 were listed and coded with a private school with PreK 4SA as they did not require a state PEIMS number. This data is not accessible to the district for 2018.**

Do charter schools or other school districts have access to SSAISD students/families enrolled in the Pre-K4 SA program? If so, in what manner. Do charter schools or other school districts have access to contact information of SSAISD students/families enrolled in the Pre-K4 SA program? If so, what kind of information? Are charter schools or other school districts allowed to "recruit" SSAISD students/families enrolled in the Pre-K4 SA program during the school year?

**Pre-K 4 SA facilitates a relationship between Pre-K 4 SA students and partner school districts only. Charter schools or other non-partner school districts do not have access to student information unless they conduct an Open Records Request, and then only to the extent required by law. Typically more than 97% of Pre-K 4 SA families sign a waiver preventing their students' information from being shared. Charter schools or other non-partner school districts are NOT allowed to recruit students/families enrolled in the Pre-K 4 SA program during the school year and are not invited to participate in *Pre-K 4 SA Welcome to Kinder* events.**

If this agreement is approved by the Board, would the administration assign a full-time liaison to "monitor" our students at any of the four Pre-K4 SA education centers?

**The MOU will have a direct point of contact to include additional central office personnel that will monitor and support the ongoing needs between our district and Pre-K 4 SA. The district will not designate a full-time liaison to monitor.**

Thank you,  
Connie Prado
