

Open Enrollment

Offering Academic Excellence, Gifted and Talented Education, Pre-Kindergarten Programs and Career and Technical Education

Saginaw Public Schools

will be accepting enrollment applications

April 14 through May 2, 2025

Starting in the 2024-25 school year, Saginaw Public Schools will be implementing a geographic zoning system to determine middle school assignments for our 6th-8th grade students. Specifically, students residing in the attendance area of Saginaw Middle will be assigned to that building, while students residing in the Thompson Middle School attendance area will be assigned to that building. Therefore, open enrollment will only apply to students in Kindergarten through 5th grade.

A detailed list of openings for the 2025-2026 school year are available at all Saginaw Public Schools and at www.spsd.net.
