

Technology Services Contract

The following conditions construct a contract between the Board of Education of the School District of Cameron and Getzger.

Scope of Services

Getzger will provide the School District of Cameron with:

Network	management, monitoring, and planning of the infrastructure
Servers	deploy, configure, maintain functionality of network servers
Equipment	setup, maintenance and troubleshooting of end devices
Users	support and instruction of network and device usage
Design	develop and maintain district website and advertising media
Manage	IT service contracts, vendors, contacts, purchases
Consultation	research and advocate district technology planning

Getzger will provide personnel on site during district operating hours, conducting low impacting maintenance or configuration.

Getzger will schedule after hour outages for service affecting maintenance after hours when required.

Term

The services outlined in this contract will be rendered between July 1, 2014 and June 30, 2015.

Compensation

\$125,000 divided into 12 monthly installments.

Agreement

These conditions are based on projected needs of the District based on enrollment numbers similar to the 2013-2014 school year, and any fluctuation of enrollment will require amending the conditions and re-ratifying the contract.

Upon review and signature of agreement to this contract, it becomes binding to the parties involved.

Our signatures below signify our commitment to fulfill all services specified in the contract.
