Silver Project- OHA Nature Trail Signs

Jan. 9, 2019

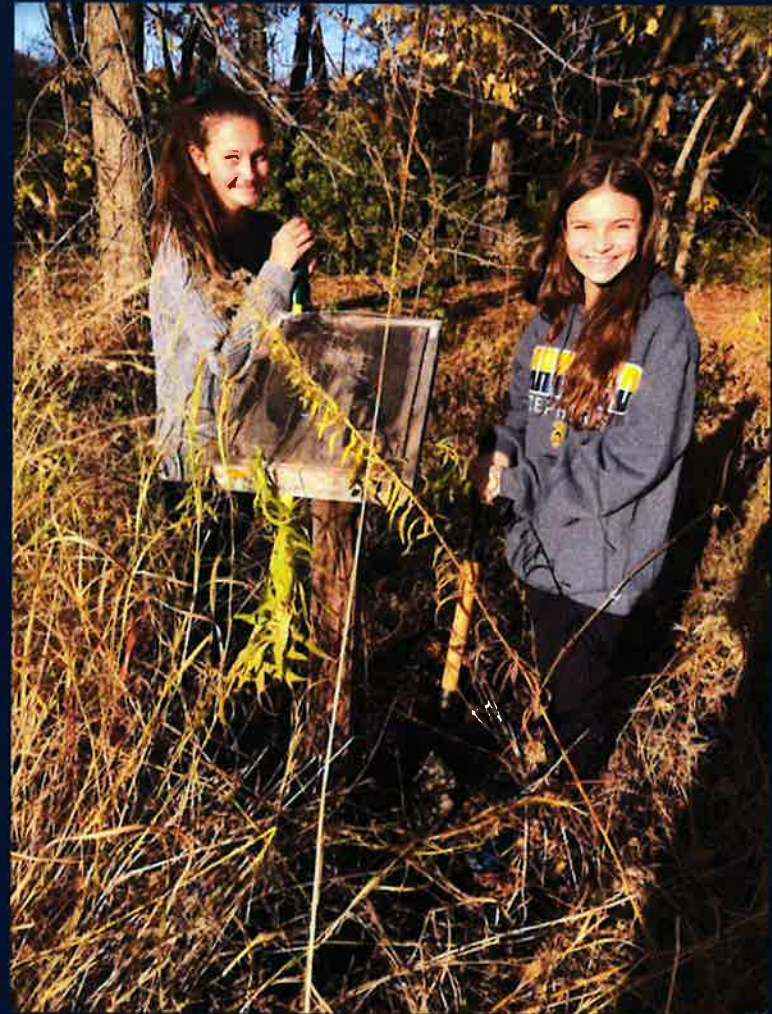

Mrs. Stang & Ms. Prather

Girl Scout Silver Project

Goal: Update signs on OHA Nature Trail.

Step 1- Create a plan and get it approved.

Step 2: Reuse some parts of old signs and remove unusable signs.

Step 3- Determine new sign locations.

Step 4- Create new signs with research, color photos, and QR codes to allow users to connect to further information on the Minnesota DNR website.

Step 5- Install signs with a team.

What I learned!

I learned how to plan the steps for completing a project.

I practiced my research skills and learned how to use QR codes.

I needed to communicate with others to plan, get donations and organize help.

OHA thanks you, Brooke!

**Your work will continue to help learning as well
as support the love of nature for our community.**
