

**Grant Manager Board Report  
August 28, 2019, SISD Board Meeting  
Brian Krosschell, Grant Manager**

It is with great excitement that I am joining the SISD team. However, following the work that Priscilla Goulding has done for the past years is a tough role to fill. I want to say a special thanks to her for the help she has provided with the transition. I also want to say thanks to all of the SISD staff for a warm welcome to the district.

**Pre-Kindergarten** - We were recently notified that we received \$116,371 for pre-kindergarten services. A special thanks to Priscilla who spent a lot of time working on this grant to meet a quick deadline.

**Opioid Response Project Director Hired** - Kristi Kuhnert was hired as the Project Director for the Health Resources and Human Services Planning Grant. The school district is part of a consortium with SouthEast Regional Health Consortium (SEARHC), PeaceHealth Medical Group (PHMG), Craig Public Health Center (CPHC), Whale Tail Pharmacy and Community Connections. The goal of this 1-year grant is to create a plan to address issues related to opioid use in rural communities. Once this planning grant is completed, the consortium will apply for an implementation grant.

**Title Funds** – Completed clarifications to narratives as requested by the state.
