

Medford 7-12 Schools
School Board Report
November 21, 2022

- 1) **Conferences:** Well attended. Numbers were up this fall, though still below where we would like them to be. Wednesday morning was sparsely attended. Considering options for spring but will likely stick with cafeteria style for at least the first night. Final numbers (545 visits Tuesday PM, 105 visits Wed. AM, total 650...versus 582 total last fall)
- 2) **Students of the month:** 12th- Grace Keller, 11th- Lilly Leemkuil, 10th- Emma Scherfenberg , 9th- Trenton Eliason, 8th-Eli Colbath, 7th- Anthony Wilson

- 3) **Robotics** has a drone up and running- learning how to fly. Hoping to put together two more and see if/how they might be used in classes-there is curriculum to put together a STEM style and/or career introductory type course around drones and the various jobs out there that use them. So looking into this to see if it would be a feasible option for our school. Still researching regulations/licensing to make sure we are legal. There are currently 8 members on the team and they are meeting 3 times a

week to prepare their robots and compete this spring.

- 4) **Qtr 1 Complete.** Grades are in and for the most part it was a typical first quarter. We did make some changes to RTI to help some of our struggling middle schoolers in the hopes of making more progress.

Thanks!
Jen Ford

Providing quality education while preparing our students and community for the future.
