Re: CISD Policy Revision

EEJB (LOCAL)

Based on the recommendations of TASB, I propose the following changes to EEJB (LOCAL).

RETESTING	If a student fails to score 90 percent on a credit by examination, the student shall not be allowed to retest during the same six-month period of published dates.
RETESTING	A student may take an examination for acceleration each time it is offered.
FEES	No fee shall be charged for an examination for acceleration provided by the District on the dates published by the District.. However, a deposit shall be collected and refunded upon completion of the examination. A student who schedules, but fails to appear for, an examination shall forfeit the deposit. If a parent or student requests an examination for a course that the District does not offer, the District may administer a test purchased by the parent or student from an approved source.
