

**ESTACADA SCHOOL DISTRICT  
BOARD AGENDA  
SUPPORTING DOCUMENT FOR ACTION ITEM**

**Regular Meeting of May 14, 2025**

**ITEM: K-12 School Reconfiguration 2026-27 school year**

**PREPARED BY: Jennifer Behrman**

**TYPE OF ITEM: Action Item**

---

**BACKGROUND INFORMATION:** **Our problem:** We are experiencing issues of overcapacity in some of our buildings, while others will quickly reach that point as we continue to grow. **Why put the committee together:** We needed feedback from our community on the next steps they want us to take to solve our problem without a bond. **Who was a part of the committee:** Estacada Community members and families. 24 signed up, around 15 regularly attended. **When will this take place:** The committee came to a consensus on the recommendation for the 2026-27 school year after three meetings, with some work in between.

**Recommending Options**

1. **K-2, 3-4, 5-6, and 7-12 Reconfiguration**
  - a. It creates equal opportunity for all students, with Targeted resources and some room for growth. The high school building will have separate entrances and bell schedules for 7th and 8th graders.
  - b. There is one cohort, K-12.
2. **2 K-4, 5-6, and 7-12 Reconfiguration**
  - a. It could require boundary changes, and RME may still need portables. The high school building will have separate entrances and bell schedules for 7th and 8th graders.

**FINANCIAL INFORMATION:** The financial impact is unknown at this time. That information will come in the next year as the planning begins for implementing the plan.

**RECOMMENDATION:** Approve either option 1 or 2 for school reconfiguration to begin in the 2026-27 school year.
