**2628 - COMPETENCY BASED EDUCATION**

The Board of Education, recognizing the need for a strong education assessment program, supports the implementation upon District qualifications of the Competency Based Education Program under the State School Aid Act of 1979 for students in the basic skills areas of mathematics and reading.

The District shall use the State-wide assessment battery to determine the eligibility of students who are eligible for the program.

The District shall also establish and maintain a readiness program for eligible five (5) year olds.

The Superintendent shall establish a committee of administrators and instructors to develop plans, in concert with State Department and Chapter I guidelines to ensure that eligible students receive maximum opportunity to develop and apply basic cognitive skills.

M.C.L.A. 388.1631 et seq.
