- Identified a theme of “Life Readiness” skills
- Vision Statement:

Students at our school will...

confidently demonstrate positive character traits, develop, manage, and demonstrate self-regulation in all environments with a variety of people.

Our school will be a place where...

student, parents, and staff confidently feel safe in an environment to foster positive relationships with open communication.

As a school community, we will strive to...

promote and reinforce an environment with academic and social expectations to create a supportive and collaborative learning environment where students are able to reflect and understand the impact of their actions on themselves and others.

- Team began to review materials based on a rubric developed on the 5 domains based on ideas and priorities identified by the team
