

Business Office Report

October 2025

Audit

We are currently in the process of wrapping up our 2024-25 financial audit and we will plan to have our auditors present at our November board meeting. The audit went very well which is a credit to our team within the business office.

Financial Statements

The financial statements provided are for August not September. Going forward we will present financial statements on a one-month delay to ensure all transactions for the period are included.
