**Mr. Mike Jones
Superintendent of Chico I.S.D.**

Dear Mike,

The City of Chico proposes a 4,000 feet, 8 inch water line. This line will run from 2952 to Park Road, to the front of the old High School located on Sherman St. The City will then tie into the old High School to include a total of 5 fire hydrants with valves. Between the new vault and back to 2952 an 8 inch line will be laid looping water system into two different directions, this will include all valves and accessories that is needed to install water system lines.

This should be able to be done in sixty (60) to ninety (90) days barring any unseen inconveniences.

The quote for the pricing of this project will be approximately \$40,000.00 to \$45,000.00.

If I can be of any other assistance on this proposal and quote, please feel free to contact me at City of Chico, 940-644-2435.

Sincerely yours,
Edward Cowley
Director of Public Works
