

CREDITS FROM NON-DISTRICT SCHOOLS

In recognizing its responsibility to uphold the minimum educational standards of the State of Illinois, the Board of Education establishes the following policy and criteria regarding the acceptance of credits from non-district schools whether they be State-approved, nonapproved, or home schools.

For credit or course-work to be accepted for courses taken in such schools, assurance of compliance with minimum requirements established by the State must be provided.

Recognition of credits or course-work shall be granted when the proper assurance and the student's transcript has been received. The District reserves the right to assess such transfer of credits in order to determine proper placement and to be assured the student can demonstrate the learnings which are prerequisite to a placement.

Although credits from non-public **district** schools may be granted and placed on a student's transcript, only grades awarded for courses taken through the District or at a school approved by a State education agency shall be considered ~~in class ranking and~~ for entering on the transcript.

Adopted 11/13/06
