Background Information

Emily Seefeldt will present an update of FastBridge and CACR.

FastBridge is a comprehensive, research-based assessment system for K-12, offering universal screening and progress monitoring for reading, math, and social-emotional behavior (SEB). It uses computer-adaptive tests (CAT) and curriculum-based measures (CBM) to quickly identify student needs, guide interventions, and monitor growth.

Comprehensive Achievement and Civic Readiness (CACR), formerly known as World's Best Workforce (WBWF), is a Minnesota educational framework adopted in 2024. It requires school districts to create long-term strategic plans focusing on academic mastery and civic engagement. This initiative ensures student readiness for life, careers, and community responsibility.
