

BUILDINGS/GROUNDS & TRANSPORTATION REPORT

Date: October 15, 2018
To: Board of Education
From: Jeff Stauder

BUILDINGS/GROUNDS

Facilities Committee

The Facilities Committee did not meet this month. The next meeting is scheduled for 5:30 p.m., Wednesday, January 9, 2019 at the Pana Jr. High School room 17.

Water/Lead Testing

After replacing the fountains and running all new water lines, the lead issue has finally been resolved at Washington school, and we now have one drinking fountain on every floor.

Ameren Illinois Energy Efficiency Program

Ameren Illinois is offering a free School kitchen makeover to eligible public schools. If selected, this program allows one school to choose two pieces of equipment to be replaced and installed at no charge to the district. We have chosen to apply for a convection oven and a steam kettle for Lincoln school.

Strategic Plan Update

I met with Mark Elliot on the 27th of September to discuss revising the District's five year strategic plan. On Friday October 12, 2018, Mr. Bauer and I met at the Jr High to go over both options of the strategic plan. GRP has revised our FY'19 plans by giving two options for the Board to view and determine which options we would like to move forward with.

Transportation

Annual Bus Evacuation Drills

Our required annual bus evacuation drills for all schools, including Sacred Heart, were conducted Wednesday, October 11th and Thursday, October 12th. This information will be forwarded to the ROE.

Annual Refresher Course

All bus drivers have attended the required two hour refresher course. This course was held at the Pana Jr. High School.

Annual Safety Hazard Resolution

Each year the district must approve the Safety-Hazard Resolution. This resolution is to confirm that our school district still has transportation hazards that exist for our students. Those hazards being highways and railroad crossings. This will require board action.
