Dear Dr Gray

I just wanted you and the Parkrose School District to know I'm excited about our 100th anniversary this year. Please let me know how my family and I may serve you and the district celebrate this awesome mile stone for our community and also the eventual completion of a new middle school. Seeing you at so many community meetings and events I know the amount of irons you have in the fire. I appreciate your work to give our children the best education possible and all the additional time you spend to improve our greater Parkrose community.

Thanks  
Joe Rossi
