Our 2013 Life Skills classroom graduates

PRINCIPALS CORNER

As school draws to a close this spring, I am reminded of the struggles and the triumph of success as I reflect on my first Hidden Valley High School graduation. It was with mixed emotion that I close out the school year in such fine fashion. I am proud to say that I was able to experience greatness sitting on the stage during the evening of June 6th. Commencement was beautiful with all of the flowers and excitement from both our students and the community. Whether it was a student speech, staff word, or a handshake of congratulations- our graduation was one to remember. There were many highlights of that evening, but one will forever be etched in my mind as the principal of Hidden Valley High School. CJ Severson getting out of his wheel chair and walking across the stage to get his diploma was one of the most powerful school and people experiences I have ever felt. Graduation is always a special moment of reflection as students complete a chapter of their young adult lives. Overall, I am very proud of our students and our team that helped organize such a successful ceremony that was first class and fun.

On a clerical note, there will be more communication coming your way this summer both in the mail, on the website, and via School Messenger about the start-up of school. This will include athletic communication as well as registration and dates. I hope each of you find some rest over the next couple of months, for August comes at us fast. Thanks for letting our team serve you as we transition to year two. Much Respect,

Daye Stone
