Board Members

At the request of Superintendent Hall I have scheduled a special meeting for Thursday at 5:00 to go over items that the Superintendent and AD have regarding issues on Winter Sports.

I will need a head count of those board members who will be attending the meeting in person so that the board room can be set up, it is important to continue with social distancing, wearing masks, use of hand sanitizer and following all School, Local Health, Tribal and CDC guidelines at all times.

The meeting will be also available virtually for this board who will not be there in person.
